
RESOLUTIONS

Material

- Power Point Game.

How to Play

This is a power point game that can be played with multiple students or two students playing against each other. A fake New Years resolution will be read that gives hint to a Biblical character. Students will try and guess which Biblical character would make this resolution.

Pro Tip:

If your students don't know a lot of Bible stories this could be a good time to share a little bit of the story and why these people would make these resolutions.
