

# SPREADSHEET SOLUTIONS

Creating business solutions through custom spreadsheets

[www.spreadsheetsolutions.biz](http://www.spreadsheetsolutions.biz)

You may well know that we create custom spreadsheets, but we provide many spreadsheet-related services which you may not know about. We have broken our services down into 4 categories, so that you can easily find the kind of service which you need. Page 1 of this brochure is about us and some contact links, pages 2 to 5 are each dedicated to one of the service categories which we provide. Take a look through some of the examples, but if you don't find what you're looking for don't lose heart, we love to take on bespoke projects and always looking for more standard options to offer.

If you would like to get in touch with us, or find out what other people think of our services, please use the links below. You can either get in touch, sign up for our monthly newsletter, see what some of our clients think about us and our services, or you can see some case studies of problems we have solved.

If you would like to know a bit more about us, you can use the links below. We are a husband-and-wife team. Richard makes the spreadsheets, and Wendy is the virtual assistant who can put them to work. If you'd like to know about us, why you should use our services, or even where you can meet us at networking events, use the links below.

## Bespoke or Standard Spreadsheets

This is our main line of work, creating custom spreadsheets to cover all sorts of applications for businesses of many shapes and sizes. We also have some standard off-the-rack solutions, so that you can try before you buy, or get inspired for your own bespoke solution. You can also find out what types of spreadsheets we get asked to do, to see what you're missing out on.

There are some useful links below, where you can find some examples of work that we have done, resources, and some inspiration for your own requirements. Please take a look at the links, but if you don't find what you're looking for, get in touch. We love taking on new projects.

### Some useful links to do with this service

#### Custom Software

Custom made business software, but made entirely using macro-free spreadsheets.

#### Simple Spreadsheets

If you don't need anything fancy, just a simple spreadsheet to do a specific task.

#### Spreadsheet Store

Custom made business software, but made entirely using macro-free spreadsheets.

#### Spreadsheet Upgrades

Do you use spreadsheets which could be doing more? Send them to us for an upgrade.

#### Spreadsheet / Software

Find out if you can use a spreadsheet solution, or if you need programmed software.

#### Types of Solutions

Look at some of the types of spreadsheets which are regularly requested by our clients.

#### 35 Problems Solved

We take a look at 35 problems which we have solved for businesses like yours. Take a look.

## Management Tools and Services

This is similar to the first category, but that is often for smaller businesses who need spreadsheets instead of business software. These services are for larger businesses, and we often team up with other professionals to offer you a more comprehensive solution. We put spreadsheets to use to provide you with key information to help you to better run your business.

There are some useful links below, where you can find some examples of work that we have done, resources, and some inspiration for your own requirements. Please take a look at the links, but if you don't find what you're looking for, get in touch. We love taking on new projects.

### Some useful links to do with this service

**Dashboards**

This is what you need, one dashboard where you can see an overview of your business.

**Increasing Your Margin**

We collaborate to analyse your expenses, and help you make cost saving changes.

**Sales Pipeline Management**

If you're keen to understand your sales process, and use that to analyse your pipeline.

**Business Advice**

If you are a business consultant, or think that you may benefit from one, take a look.

**You Need a Spreadsheet**

If you need a custom product in our store, to recommend to your clients or consultants

## Administrative & Analytical Work

We don't only create spreadsheets, but we also use them to put them to good use for you and your business. If you understand that spreadsheets can be useful for your business, but you don't have the time or inclination to use them, then we can use them for you. Although we do bespoke virtual assistance, we have also made some standard solutions. Take a look.
