We can design your ad for you too, ask for a quote!

Main Entrance of SBX2013 at the NJCEC Building

Our goal is to fill the windows closest to the main entrance and expand outwards. We prefer to not leave any gaps, for the overall appearance as attendees approach the building. You are free to choose any window you like, but if any remain unsold, we may relocate your choice to maintain continuous coverage.

The first windows to fill will be 13-18, and then we'll expand to 12 and count down to 1.
