- 26) Demid Obruchev- Lithuania
- 27) Otto Von Zagoskin- Albania
- 28) Yuri Rezanov- Uzbekistan
- 29) Ernst Laptev- East Germany
- 30) Stepan Rusanov- Poland

CLARIFICATION OF PORTFOLIOS

Delegates you all represent common people of the Soviet Union. This means that you can represent your own personal views on each and every topic in the committee. The locations that you have been assigned are just to help you find more specific problems faced by people of Soviet Union instead of only thinking of the country as a whole. You are not required to do in depth research of your regions.

For example, people from the Baltic states could consider the ethnic differences and bullying of ethnic minorities in the Soviet Union and come up with solutions. Similarly, people from Ukraine can raise the issue of intentional starvation of people that was carried out by the state

and decide on how it can be prevented. We don't expect you to delve further into specific regional issues.

People that have been assigned Soviet Satellites can, for example, talk about the causes, effects and solutions of problems such as the brutal riot control methods used by the state and the oppression of the common people in their region. (Remember that in the committee you are still Soviet Citizens that have spent a small portion of your life in your assigned Soviet Satellites)

Again, we don't expect you to know too much about specific locations. They are only given to guide you towards additional regional problems instead of just looking at the country as a whole. Remember that you don't have to stick to the ideologies of your particular region (or think of them as policies or ideas you have to represent). It will be perfectly fine if you don't bring up your specific locations in the committee. Rather, it will be appreciated if you do so.
