

Petrol System Treatment

Detergent and fuel stabiliser - significantly cleans petrol system components and controls combustion chamber deposits.

Application

Cleans petrol system components and stabilises fuel in storage and under thermal loads. Gives excellent corrosion protection and water tolerance.

Physical Characteristics

Appearance	Brown
Odour	Slight aromatic
Flash point	60° C
Relative Density	TBC <0.90
Solubility	Insoluble in water
Viscosity	TBC <40

Dosage Rate

For 1-tank clean up of the complete fuel system, 20ml is sufficient to treat 20 litres of petrol.

NOTE: This product is not suitable for petrol that contains over 50% ethanol. Cannot be overdosed.

Packaging

Petrol System Cleaner is available as a 250ml bottle with dosing chamber.

Storage & Handling

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not breathe dust/fumes/vapours. No smoking. Do not get in eyes and avoid contact with skin, wash hands after use. Keep container tightly closed. Keep cool and store in a well ventilated place away from sources of potential ignition.

Safety & First Aid

Available on request
