

## Overview of The Creative Curriculum® for Preschool

The Creative Curriculum is a developmentally appropriate, comprehensive, research based curriculum that promotes positive outcomes for pre-S and pre-K children. It emphasizes exploration and discovery as a way of learning, enabling children to develop confidence, creativity and lifelong critical thinking skills.

The Creative Curriculum features studies which are exciting, engaging firsthand explorations of topics that are relevant to children's everyday experiences. The study approach is a method of integrating content learning through children's in-depth investigations of a meaningful topic. Children raise questions about the topic, and through exploration and discovery they find answers to their questions. The hands-on experimental nature of studies taps into children's natural curiosity, resulting in a learning environment that is both fun and intentional.

### Advantages of Studies:

- Allow children to explore science and social studies topics while developing skills in language and literacy, math, technology, and the arts
- Let children apply their acquired skills in meaningful, real-life contexts
- Encourage higher-order thinking, development of intellectual interests, and positive approaches to learning
- Give children the necessary skills to solve problems and find answers to their questions in a creative way
- Support the development of social-emotional skills, such as resolving conflict, sharing responsibilities, and working collaboratively
- Encourage family involvement

### Objectives for Development & Learning

The 38 research-based objectives are the heart of the curriculum and define the path teachers take with children in their classroom. They inform every aspect of teaching, include predictors of school success, and are aligned with state early learning guidelines and the Head Start Child Development and Early Learning Framework. The objectives cover 10 areas of development and learning, including broad developmental areas, content areas, and English language acquisition.
