

UNDER MY UMBRELLA

SUPPLIES

- Outdoor space
- Enough umbrellas for each student
- Buckets
- List of categories
- Lots of water!

MODIFICATIONS

Try filling the water bucket with different substances, like slime, flour, chicken broth, etc.

HOW TO PLAY

Students will stand in a line with umbrellas folded. Once the game leader announces the category, students will go down the line naming something within the category. Once they correctly name something, they can open their umbrella, but if they answer wrong or take too long, the entire line is splashed with water from the bucket before they can open their umbrella.

NEXT LEVEL

The more students that you have playing, the more fun you'll have! And don't be afraid to be quick with the bucket for students who are slow to answer!
