Introduction Slides with editable text boxes

When you see the word

READY

get ready to listen and read
the problem. You can get
your white board and
marker ready. This is your
signal to erase your board
if needed.

© wanttobesuperteacher.com

When you see the word

SET

you can start working
out the problem and
showing your answer on
your white board.

© wanttobesuperteacher.com

When your
answer is ready,
put the white
board under
your chin with
your writing
facing you.

© wanttobesuperteacher.com

When you see the word

SHOW

hold up your white board
and show off your
answer. Make sure your
teacher can see it.

Practice question with step-by-step instructions

Let's Practice!

Ready

Erase your board if needed and read the question.

Write this number
in standard form:
 $30+5$

Set

Now work out the problem on your white board. When you have your answer ready, put the white board under your chin with your work facing you.

Write this number
in standard form:
 $30+5$

Show

Show off your answer! Hold up the white board so your teacher can see your work. Don't worry if it's wrong. Mistakes are proof that you are trying!

Editable Slides + Instructions for Easy Customization

Editable Slide Instructions

IF you would like to make additional slides for this show, the text boxes on the slides below are **editable** and can be copied and pasted into the existing show as many times as you would like.

To edit the slides, just click on the text box and edit away! The fonts used on these slides are embedded into this PowerPoint so they should show up on your computer just like they do on mine. However, if something isn't looking quite right, you can also download these fonts for free at TPT and download them to your computer.

The fonts used are:

[KG Miss Kindergarten](#) (questions)

[KG Blank Space Solid](#) (answers)

To download right click on the link above and choose "open hyperlink".

Once you have created your own slides you can copy, paste, and move them wherever you would like in the show.

To do this, go to the left-hand side of the screen where you see all the slides.

Click the first slide you want to copy (probably the Ready slide).

Now hold down the Shift key and click the last slide you want to copy (probably the Answer slide).

Now hit Ctrl+C to copy.

Go wherever you want to put the selected slides in the show and click between the slides where you want to insert your slides.

Now hit Ctrl+V to paste the slides you copied!

If you make a mistake, stop... breathe... And hit Ctrl+Z. This will undo the last action so you can retrace your steps. (This strategy works very well for kiddos in the computer lab too!)

You can use the process above to add to and customize the show so you can use this resource over, over, and over again!

Ready

Click and type your question here.

Set

Then click here and copy and paste the same question.

Answer

0000

Show

Then click here and copy and paste it once more.
