

# Biological Liquid Spill Kit

In the sailing world liquid spills are a fact of life, a touch of sea-sickness, a pet 'accident' or a child's upset stomach due to travel sickness can quickly make a good day bad.

Our Biological Liquid Spill Kit is an effective way to deal with these little upsets. The easy to use kit contains a specially formulated absorbent powder, gloves, disposal bag, an area cleaner and deodoriser with cloth. Everything you need to deal with a single spill.

The specially formulated powder quickly absorbs spilled liquids and semi-solids such as vomit etc., Spills are rendered safe and easy to dispose of and followed by the biological cleaner the area is sanitised and refreshed and odours deodorized.

## How to Use

1. Open kit and put on disposable gloves
2. From the kit, sprinkle the absorbent powder over the spillage
3. Allow 2 minutes for the spill to solidify
4. Scoop or sweep solid waste into the disposal bag
5. Spray area liberally with the biological cleaner, wipe with cloth
6. Repeat cleaning if stain persists
7. Re-apply cleaning spray and leave to dry as enzymes continue to neutralise bacteria

## Health & Safety

The liquid spill kit should be handled under good house keeping practices. The product contains naturally occurring non-pathogenic bacterial cultures. Please wash hands after use and keep away from drinking water and foodstuffs. Liquid Spill Kit is non-flammable, biodegradable, non-toxic and when used as directed, is completely safe. For best results store product in a cool, dry place.
