

INFORMED CONSENT TO PARTICIPATE IN FIELD TRIP
TO THE UNIVERSITY OF KENTUCKY

Your child is scheduled to attend a field trip to the University of Kentucky on _____. This is to advise you that there have been at least three confirmed cases of mumps and one confirmed case of meningitis on campus this year. It is our understanding that the University is taking precautions to keep their student population healthy and safe, but we wanted to make sure you were aware of this information.

Most of the FCPS student population has received immunizations that would protect them from these illnesses. If you have any doubt, please contact your child's physician to confirm. If you have chosen not to immunize your student or are advised by your physician that your student should not attend the trip, please let your school know.

I, _____, parent/guardian of _____, am aware that there have been cases of mumps and meningitis on the University of Kentucky campus this year. With full knowledge of this, I consent to my child attending the school field trip to the University of Kentucky on _____.
