

PREPARING FOR ADULTHOOD

The SEN reforms that came into force on 1st September 2014 require local authorities, health and partner agencies to support children and young people (C&YP) with Special Educational Needs (SEN) or disability to prepare for adult life, and help them go on to achieve the best outcomes in employment, independent living, health and community participation.

This event is for professionals across education, health, Information, Advice and Support, careers guidance, supported employment, leisure, social care, youth justice and groups representing young people and parents/carers.

The purpose of the event:

- To provide an update on the SEN'D reforms in relation to young people aged 14-25
- To explore how we can work together to plan strategically for the support young people will need to prepare for adult life
- To explore how we can work together to enable young people to have the information and skills they need to help them gain independence and prepare for adult life
- To smooth the transition into post 16 provision in education, employment, health and social care

Agenda

Date: 16th October
