Introduction slides with editable text boxes

When you see the word

READY

get ready to listen and read the problem. You can get your white board and marker ready. This is your signal to erase your board if needed.

© wanttobesuperteacher.com

When you see the word

SET

you can start working out the problem and showing your answer on your white board.

© wanttobesuperteacher.com

When your answer is ready, put the white board under your chin with your writing facing you.

© wanttobesuperteacher.com

When you see the word

SHOW

hold up your white board and show off your answer. Make sure your teacher can see it.

Practice question with step-by-step instructions

**Let's
Practice!**

Ready

Erase your board if
needed and read the
question.

$$1 + 4 = \text{💡}$$

Set

Now work out the problem on
your white board. When you
have your answer ready, put
the white board under your
chin with your work facing you.

$$1 + 4 = \text{💡}$$

Show

Show off your answer!
Hold up the white board so
your teacher can see your
work. Don't worry if it's
wrong. Mistakes are proof
that you are trying!

$$1 + 4 = \text{💡}$$

Answer

5

313 Addition & Subtraction Facts

Ready

$$2 + 18 =$$

Set

$$3 - 2 =$$

Show

$$7 + 3 =$$

Ready

$$20 - 2 =$$

Set

$$7 + 7 =$$

Show

$$16 - 13 =$$

Ready

$$5 + 6 =$$

Set

$$4 - 1 =$$

Show

$$5 + 1 =$$

Presented in a mixed format

Ready

$$17 - 3 = \text{🔴💣}$$

Set

$$4 - 2 = \text{💡}$$

Show

$$2 + 2 = \text{👴📜}$$

Ready

$$6 - 5 = \text{🦌}$$

Set

$$16 + 3 = \text{🧤}$$

Ready

$$15 - 7 = \text{❄️}$$

Set

$$11 + 7 = \text{👶❄️}$$

$$15 - 5 = \text{👴📜}$$

Every addition equation with
a sum of 2-20 is included

Ready

$$1 + 1 = \text{👤}$$

Show

$$10 + 10 = \text{💡}$$

Facts with 1-digit numbers first

Ready

$$8 - 8 =$$

Set

$$2 + 6 =$$

Show

$$7 + 2 =$$

Ready

$$6 + 3 =$$

Set

$$6 - 1 =$$

Show

$$8 + 1 =$$

Ready

$$4 + 8 =$$

Set

$$1 + 6 =$$

Show

$$4 - 3 =$$

Facts with at least one 2-digit number next

Ready

$$13 - 12 =$$

Set

$$13 + 4 =$$

Show

$$10 - 9 =$$

Ready

$$11 + 4 =$$

Set

$$6 + 11 =$$

Show

$$14 + 3 =$$

Ready

$$16 - 14 =$$

Set

$$12 + 3 =$$

Show

$$20 - 19 =$$

Editable slides + instructions for easy customization

Editable Slide Instructions

If you would like to create additional slides for this show, the text boxes on the slides below are editable and can be copied and pasted into the existing show as many times as you would like.

To edit the slides, just click on the text box and edit away! The fonts used on these slides are embedded into this PowerPoint so they should show up on your computer just like they do on mine. However, if something isn't looking quite right, you can also download these fonts for free at [TpT](#) and download them to your computer.

The fonts used are:
[KG Mega Spacing](#) (questions)
[KG Blank Space](#) (answers)

To follow the links, right click on the link above and choose "open hyperlink".
If you want to add the same clipart images, 4 sets were used to create this activity. You can download one set for free from [Dance Padmas](#), store [HERE](#), and purchase the sets from [Dance Padmas](#) [HERE](#), [A Perfect Blend](#) [HERE](#), [Doodle Fonts](#) [HERE](#), and [Opportunity](#) [HERE](#). To follow the links, right click on the link(s) above and choose "open hyperlink".

Once you have created your own slides you can copy, paste, and move them wherever you would like in the show.

To do this, go to the left-hand side of the screen where you see all the slides.

Click the first slide you want to copy (probably the Ready slide).

Now hold down the Shift key and click the last slide you want to copy (probably the Answer slide).

Now hit Ctrl+C to copy.

Go wherever you want to put the selected slides in the show and click between the slides where you want to add your slides.

Now hit Ctrl+V to paste the slides you copied.

If you want to move the original slides, you can do this using the same process above, but when you paste the slides will appear blank. Don't worry! Just hover over the first slide you pasted and choose "Keep Source Formatting" from the pop up clipboard menu. Then the slides will look like the originals.

If you make a mistake, stop... breathe... And hit Ctrl+Z. This will undo the last action so you can retrace your steps. (This strategy works very well for kiddos in the computer lab too.)
