### Schaller Golden 50 Super

AQ-605 is equipped with Schaller's "Golden 50 Super" high-quality pickups. This humbucker uses 12 Alnico magnets, which respond very quickly to the string vibration. Coils are wound with great care and then soaked in a special solution so that the 2 coils of a Humbucker correspond exactly in value with minimum feedback. You will get the rich sustain and aggressive sound without losing any clarity of tone.

Coils parallel:  
Inductance: 1.4H  
DC Resistance: 3.2k $\Omega$

Coils in serie:  
Inductance: 5.64H  
DC Resistance: 12.8k $\Omega$
