General Information

Placing An Order

When placing an order please:

- Provide us with the product name / code.
- Send your order via email and attach any artwork you wish to use.
- Give clear instructions as to quantity, size, thickness, background and Pantone colours.
- Possibly attach a rough sketch if placement of artwork is necessary.
- No job will be commenced without a written order and signed off artwork.

Artwork

Please supply artwork in Corel Draw, Freehand or High Resolution PDF Format. Minor changes to artwork (less than 15 minutes work) is free, thereafter an additional charge may be levied. Please note that colours seen on a computer screen, or printed colour proofs are usually very inaccurate and cannot be relied on.

Lead Time

Lead time is usually 10 working days from signed off artwork. This will vary depending on the quantity and complexity of the job. Our products are manufactured to order, so please bear this in mind when considering lead times. Rush jobs can sometimes be accommodated, but may incur an overtime surcharge. Generally all prices are ex-factory.

If shipping / transport is required, please ask for a quote.

Branding

Many of our products can be branded in a variety of ways.

The best solution will depend on the quality required, quantity and size of the product.

Please ask for advice if you are unsure of how best to brand a particular product.

Silkscreen Printing -

Up to 8 colours can be printed, and each colour is charged for separately. Printing is done on manual, semi-automatic or fully automatic machines, depending on quantity and number of colours being printed.

Litho Or Digital Printing -

Suited to very short, medium and long runs and is a cost effective solution.

The number of colours is irrelevant, as all printing is done in full colour (C:M:Y:K)

Digital Flatbed Printing -

Digital Flatbed Printing using UV Curable inks can be used on many materials other than paper or board and is therefore suitable for printing on a variety of hard wearing substrates as well as many foam products. It is environmentally preferable to solvent based printing.

The number of colours is irrelevant, as all printing is done in full colour (C:M:Y:K)

*Ask Us About Our Tree Free Material Which Can Be Used On Certain Products.

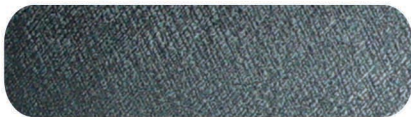

Printed On Natural, Recyclable, Moisture Resistant Mineral Substrate.

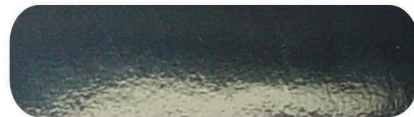

General Information

Since 1989 we have been a supplier of the highest quality foam products to a wide variety of clients, both nationally and internationally. We design, manufacture and wholesale all of our own products, having all the necessary skills, in-house, to get any job done, no matter how big or small. From our humble beginnings as a local supplier of quality foam products to a small client base, we have grown into a large-scale international supplier. We have manufactured products for most of the top 100 companies in South Africa and our products, such as our cushions, peaks and quality can coolers, have proven themselves at major events like the Comrades Marathon, the Bahrain Grand Prix, Wimbledon tennis tournament (since 2003), Stella Artois (since 2003) and the list just goes on. On every occasion we have provided cost-effective, quality products, delivered on time. With our specialty focus on foam products, and our years serving the market, we have raced ahead of the pack and become the South African industry leader. By perfecting our production and refining our processes, we have developed a variety of foam products and can provide you with the perfect products for your brand promotion.
