Superior Quality

ET-320

ET-320

The finest three pick-up with tremolo electric guitar made. Large ultra deluxe body contoured and sculptured for perfect body comfort. A handsome sculptured cutout lightens the big body and ensures perfect balance. Three ultra high sensitive pick-ups for maximum sensitivity. New floating bridge with built-in rollers for friction free vibrato. Individual noiseless velvet touch ON/OFF switches. Volume and tone control, and solo or rhythm bass cutout switch. The detachable and adjustable steel reinforced neck is warp-proof. The 22 fret extended rosewood fingerboard has 10 inlaid position markers. Brushed satin metal plates protect the beautifully finished body.

List \$144.00

ET-220

ET-220

Deluxe two pick-up electric guitar with tremolo tailpiece and hinged cover. Extra large contoured body. The pick-ups have individual string adjustment screws, and are controlled by their own separate volume and tone controls. There are individual, noiseless, velvet touch ON/OFF switches for each pick-up. The steel reinforced adjustable neck is removable. The rosewood fingerboard is inlaid with 8 position markers. Protective pick guard is satin finished metal. Chromed adjustable bridge.

List \$102.00

Guarantee

TEISCO guitars are unconditionally guaranteed for one full year against manufacturing defects.

The craftsmen at Teisco take great pride in their product, and this is your best assurance of lasting satisfaction.

Ultimate In Sound

The very finest materials and craftsmanship are the accepted standards. TEISCO, the largest and most progressive manufacturer of electric guitars in the world, goes far beyond this to give you the ultimate in modern sound.

Advanced technological research and constant improvements are responsible for the world's first self contained transistorized guitar, the new (pat. pending) compression tremolo, the universally adjustable floating bridge, the ultra high sensitive pick-ups, and many other innovations which contributed towards the superb tonal quality of your Teisco electric guitar.

TRE-100

TRE-100

The first self-contained transistorized electric guitar in the world. The built-in amplifier and speaker operated by 2 standard 9 volt batteries makes this cordless electric guitar ideal for practice and for those on the go. Can also be played as standard unit with amplifier. Beautiful double cutaway body with single pick-up. Separate volume and tone controls. ON/OFF switch for battery use. The detachable and adjustable steel reinforced neck is warp-proof, 22 fret extended neck. The rosewood fingerboard has 10 inlaid position markers. Brushed satin metal protective plate.

TRET-110

Same as TRE-100 but with tremolo.

E-100

E-100

Beautifully designed double cutaway electric guitar featuring deluxe single pick-up with individual adjustment screws, volume and tone controls, and chromed tailpiece. The steel reinforced neck has a rosewood fingerboard with 8 inlaid position markers.

List \$57.00
