

## Bio301 final Term

### Paper 1

Current Final Term Papers of Spring 2018

BIO301

RFLP and RPD - 2 marks

Point mutation - 5 marks

Mutation effects - 10 marks

Genetic mapping - 5 marks

BIO201

Long Cam 2 kinase function

Cell cycle

Transcription

The difference in the structure of confluent monolayer & post-confluent.

### Paper 2

My today's paper of BIO301 Essentials of Genetics

Some MCQs that mjhy yad rhyyyyyyyyyy..... J

1....Genetics is ths study of

1)genes

2)chromosomes

3)DNA

4)all of above

2..... What the mutations which are on a specific point ,,,,?

3.....ferquency rate of resesive autosomal disease....?

4.....What is the start codon in purines .....

5.... how many process are involved in epigenetics...?

6.... Who said that the gene is located on chromosome?

7.....Fishes have which sex determination system?

8.....change in number of chromosome is called...?

9..... Colchicine is promotes?

10.....Cytokinesis in plants occur ....?

11 .... trisomy 18 is called?
