ADAM.CG Pro is **free for personal use only**. If you wish to use it in your commercial projects, you'll need an appropriate commercial license. There are different kinds of licenses available based on how you wish to use the font in your projects. Please reach me via email to obtain a quote.

Personal Use:
Personal use entails utilizing copyrighted materials for individual, non-commercial purposes. This encompasses actions like viewing a film privately, perusing a book, enjoying music, or sharing content with a limited circle of acquaintances or family members. Personal use usually excludes any involvement of monetary profit or dissemination to the broader public.

Commercial Use:
Commercial use pertains to the utilization of copyrighted materials for business, promotional, or profit-driven intentions. This encompasses actions such as vending copies of a book, incorporating a song into a commercial advertisement, integrating copyrighted content into merchandise for sale, or employing copyrighted materials on a website that generates income via advertisements or subscriptions.

Employing copyrighted materials for commercial aims necessitates securing the essential rights and authorizations from the copyright holder. This frequently entails obtaining a license and potentially making payment for licensing fees. Neglecting to acquire the suitable permissions for commercial use can result in assertions of copyright infringement and potential legal ramifications.
