

GRIDLESS NODE

All-in-One Power + Secure Communications

20+hr
runtime

on a single charge

7lbs
lightweight

for easy portability

4G^{LTE}
connection
secure and encrypted

WiFi
dual band
802.11 a/b/g/n/ac

The Gridless NODE creates an LTE backed WiFi "bubble" wherever you need it. The NODE combines a Gridless battery and a Cradlepoint router in one easy-to-use box. The internal battery can run the hotspot for 20+ hours on a single charge.

1

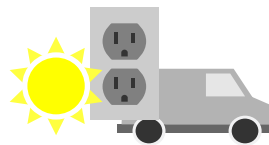

Button Operation

Simply press one button to activate the NODE. No extra steps needed.

IP65

Weatherproof

Safely operate and transport the NODE in any weather condition.

Flexible Charge

Charge the NODE from the wall, a vehicle, or a solar panel.

TSA Compliant

Check or Carry-On with the NODE's advanced safety technology.
