

Changing Time and Date settings

1. Power off the dashcam remove the microSD card.

2. Insert the microSD card into the microSD card reader.

- 3. Connect the microSD card reader to your computer.
- 4. Download and install the BlackVue Windows PC Viewer.
- 5. Run the program after installation and click **SD Card Viewer**.
- 6. Click the Setting cog wheel.

- 7. Click on the **Firmware** tab at the top of the settings page.
- 8. When the window loads, select Basic.

9. As per the picture below, you can make any changes to the time there.
