HEATHENS

Cackalacky Celt Punk

Fast. Loud. Raw. Cool. Celtic.

Born Again Heathens are bringing the swagger to Celtic music. With influences from Minor Threat to The Pogues and a host of others, the Heathens blast through original tunes and traditional Celtic songs with reckless abandon. While Andy and Scott keep songs chugging along, mOg wails away on the bagpipes, and Bryan plays guitar like a man who's made a pact with the devil.
