

## Alberta MS Network 2019 Summer Studentship Application Guidelines

### Alberta MS Network

The Alberta MS Network (previously the 'Alberta endMS Regional Research and Training Centre') was initiated in 2009 with funding from the MS Society of Canada. What began as a training network to enhance the quality of teaching of MS trainees in Alberta rapidly evolved into a network across Alberta that fosters collaboration, research, and educational activities on MS. Today, the network has helped to establish Alberta as a hotspot for cutting edge MS training and research. For more information about the network visit the website:
