

TERRA

TERRA

Terravista

Terravista is a fine clay plaster that is made of clays from different Italian regions. The natural colors are a reference to these regions. Terravista can be applied as a smooth, textured or weathered finish. With the right addition of terra plus polymers Terravista becomes more damp resistance.

Rassoterra

Terravista is a medium clay plaster that is made of clays from different Italian regions. The natural colors are a reference to these regions. Rassoterra can be applied as a smooth, textured or weathered finish. With the right addition of terra plus polymers Rassoterra becomes more damp resistance.

Multiterra

Multiterra is a coarse clay plaster that is made of clays from different Italian regions. The natural colors are a reference to these regions. Multiterra can be applied as a smooth, textured or weathered finish. With the right addition of terra plus polymers Multiterra becomes more damp resistance.

Terrawabi

By playing with different application techniques and the addition of products such as lime, we can make beautiful weathered finishes of our terra products. We call this finish Terra wabi.

Appearance:	Mat
Material:	Clay
Thickness:	2 mm
Usage:	Only inside
Wet area:	No
