

EMERGENCY

DONATION CAMPAIGN

HELP PROVIDE AMBULANCES - SAVE LIVES IN UKRAINE

We will never be able to estimate how many lives YOU WILL SAVE, but it is about every heartbeat,

...about the constant need to evacuate and transport heavily wounded patients from hospital to hospital to ensure proper treatment.

An average Ukrainian Hospital receives 70-100 wounded every day.

... about the new reality for the emergency medical service in Ukraine, which, despite these conditions, still has to maintain a service for the civilian population.

The number of civilian emergency calls has increased by 12 times during the period of war.

200 ambulances equipped with the most essential equipment needed to save LIVES.

Doc4Ukraine is launching the mass delivery of ambulances to Ukraine. **The first ambulances have already been sent to Ukraine.**

DOC 4 UKRAINE

One saved life is enough to act

Doc4Ukraine - network of **+170** renowned organizations joined to support Ukrainian hospitals.

Doc4Ukraine has an official status of an NGO of General Interest. This status serves as a proof of our credibility, visibility, and consistency in delivering results, and access to a strong recognised network.

HIGH-VALUE PROJECTS

We share our experience in project management and bring together companies to collaborate on high-value projects that aim to save lives.

TAX DEDUCTION

All the donations towards an association with a status of General Interest are subject to tax deduction.

TRANSPARENCY

We strive for transparency and accountability in all our operations, ensuring that your donations are being used effectively towards our mission.

SINCE THE BEGINNING OF THE WAR, OVER 650 AMBULANCES HAVE BEEN PUT OUT OF SERVICE DUE TO RUSSIAN MILITARY ACTIONS.

IN DETAILS

Donate for your ambulance to save a life in Ukraine

DONATIONS

100% of donation will be used to buy ambulances and equipment.

For donations from a French entity, a 60% tax deduction is possible

VEHICLES

Vehicles available for composition of the fleet :
**Citroen Jumpy, Boxer
Peugeot, Fiat.**

TIMELINE

Delivery will take place over a **period of 2-3 weeks**, with the vehicles being delivered step by step to manage the flow, ensuring the final destination of the ambulance.

DEPLOYMENT

Ambulances are checked in France and additionally maintained and prepared in Kyiv.

Our transportation partners ensure the delivery of vehicles by trucks from France to Poland.

Ukrainian partners maintain secure delivery to Kyiv.

Finally ambulances will be deployed to saving life medical teams and mobile medical units like Medbat and Hospitalers.

The most critical and needed lifesaving mechanism at present.
