Introduction Slides with editable text boxes

When you see the word
READY
get ready to listen and read the problem. You can get your white board and marker ready. This is your signal to erase your board if needed.

© wanttobeasuperteacher.com

When you see the word
SET
you can start working out the problem and showing your answer on your white board.

© wanttobeasuperteacher.com

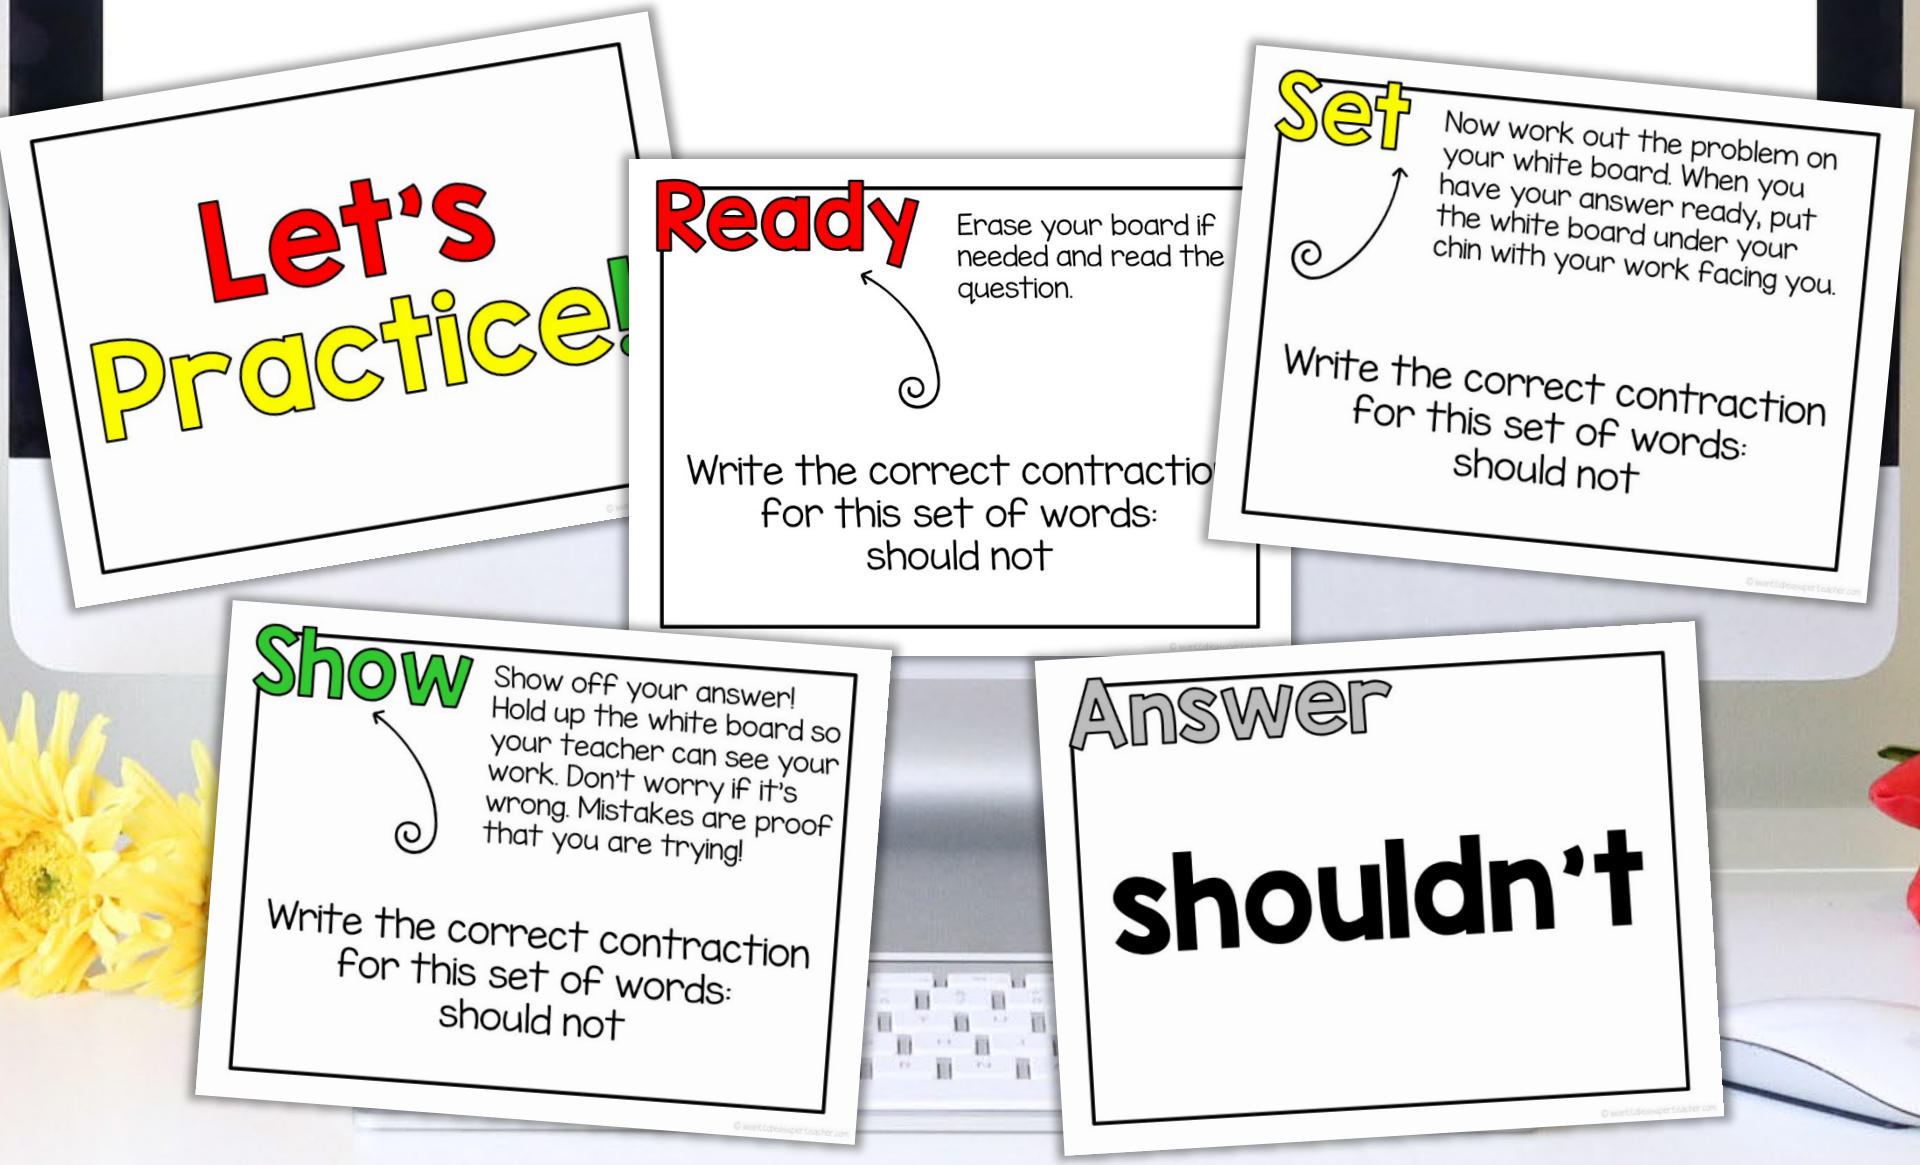

When your answer is ready, put the white board under your chin with your writing facing you.

© wanttobeasuperteacher.com

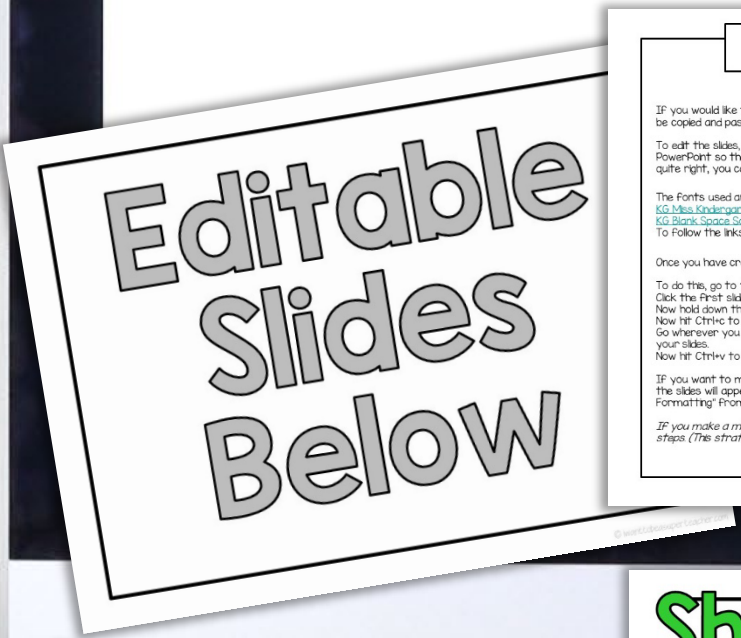

When you see the word
SHOW
hold up your white board and show off your answer. Make sure your teacher can see it.

Practice question with step-by-step instructions

Editable Slides + Instructions for Easy Customization

Editable Slide Instructions

IF you would like to create additional slides for this show, **the text boxes on the slides below are editable** and can be copied and pasted into the existing show as many times as you would like.

To edit the slides, just click on the text box and edit away! The fonts used on these slides are embedded into this PowerPoint so they should show up on your computer just like they do on mine. However, IF something isn't looking quite right, you can also download these fonts for free at TpT and download them to your computer.

The fonts used are:
KG Miss Kindergarten (questions)
KG Blank Space Solid (answers)
To follow the links, **right click** on the link above and choose "**open hyperlink**".

Once you have created your own slides you can copy, paste, and move them wherever you would like in the show.

To do this, go to the left-hand side of the screen where you see all the slides.
Click the first slide you want to copy (probably the Ready slide).
Now hold down the Shift key and click the last slide you want to copy (probably the Answer slide).
Now hit Ctrl+c to copy.
Go wherever you want to put the selected slides in the show and click between the slides where you want to insert your slides.
Now hit Ctrl+v to paste the slides you copied.

IF you want to move the original slides, you can do this using the same process above, but when you paste them the slides will appear blank. Don't worry! Just hover over the first slide you pasted and choose "Keep Source Formatting" from the pop-up clipboard menu. Then the slides will look like the originals.

IF you make a mistake, stop . . . breathe . . . And hit Ctrl+z. This will undo the last action so you can retrace your steps. (This strategy works very well for kiddos in the computer lab too.)
