

God's Wonders

In the wonders of creation, we can see God's creative signature everywhere...

From the smallest things to the largest...

1. *Small: Atoms:*

Hebrews 11:1-3

[11:1] Now faith is being sure of what we hope for and certain of what we do not see. [2] This is what the ancients were commended for. [3] By faith we understand that the universe was formed at God's command, **so that what is seen was not made out of what was visible.**

2. *Large Continues to get larger...*

Genesis 1:1 In the beginning God created the heavens and the earth.

3. Light and colors?

Job 38:19 (NLT)

"Where does light come from, and where does darkness go?"

God's Wonders

Nature of itself tells us nothing

of God's love or God's grace.

1. *God loves us and has shed His life upon us so we can see past darkness and the invisible...*

John 1:1-5

2. *Any areas we cannot see God, He wants to give us sight...*

In Ephesians 3:16-19

God makes his love known to us in the unseen reaches of our heart and spirit. Hebrews 11:1-3

In faith God's love is made certain in our hearts
