College of Business and Engineering, *Minor: Technology and Management*

PROFESSIONAL EXPERIENCE

Mr. SharePoint, Chicago, IL
Principal Solutions Architect

June 2014 - Present

Mr. SharePoint helps companies maximize their SharePoint, Office 365 and digital process automation investments

- Design and configure SharePoint on-premise and online portals
- Migrate data from Dropbox, Box.com, Google Drive, etc. to SharePoint Online and OneDrive
- Configure and maintain client Office 365 environments
- Develop and maintain automation solutions leveraging tools like Power Automate, Power BI, and K2

K2, Chicago, IL

Pre-Sales Technical Engineer, Sales

July 2015 - October 2016

K2 products help users to rapidly build, deploy, and run business applications with visual design tools in a no-code and low-code environment. Users can build web-based BPM and forms-based applications that include mobile, offline, BI, and line-of-business integration

- Fully engaged in pre-sales process from qualification & discovery through to close
- Presented, tailored, demonstrated, and architected solutions for prospects and customers
- Built & customized demos & POCs using K2 products, connected to systems such as SQL, SAP, SharePoint, Salesforce, Oracle, REST/SOAP
- Responded to RFPs and RFIs
- Created and presented event-specific and vendor-specific content at community, regional, and national events such as SharePoint User Groups, SharePoint Saturday, That Conference, ILTA, Gartner, and AIIM
- Engaged with and trained technical & channel partners at the field level
- Created product extensions via C#, JS, HTML 5, and CSS
- Interviewed, trained, and mentored new hires and existing teammates

American Medical Association (AMA), Chicago, IL
SharePoint Designer, Information Technology

June 2014 - June 2015

The American Medical Association (AMA) is the largest association of physicians—both MDs and DOs—and medical students in the United States.

- Worked with various business users to document functional requirements and use cases
- Designed and develop complex workflow solutions using Nintex Workflow and Nintex Form
- Lead development efforts for new, firm-wide collaborative-based projects
- Lead migrations of complex applications to SharePoint 2013 with help from development team

Slalom Consulting, Chicago, IL
Consultant, Portals & Collaboration Practice

January 2014 - June 2014

Slalom designs and builds strategies and systems to help clients solve some of their most complex and interesting business challenges.

Notable Clients:

ITW (April 2014 - June 2014)

- Managed the development of SharePoint 2013 Intranet, Extranet, and Dev environments.
- Successfully planned the retirement of an outdated SharePoint 2010 farm.
- Successfully planned and executed Information Architecture projects across 6 functional areas to clean, classify, and migrate over 3 TB of outdated content from a SharePoint 2003 farm to SharePoint 2013.

Nestle (January 2014 - April 2014)

- Worked as part of a team of four other architects to build out a new SharePoint 2013 farm.
- A critical project vertical involved me managing a team of two onshore and three offshore resources to audit, organize, cleanup, consolidate, and classify over 3200 Site Collections. This was needed pre-work prior to migration into the new farm.

GCM Grosvenor, Chicago, IL

August 2010 - December 2013

GCM Grosvenor is one of the world's largest independent alternative asset management firms, with over \$45 billion in assets under management

SharePoint Analyst, Software Development (May 2013 - December 2013)

- Was the firm's main SharePoint expert.
- Translated business processes into technical solutions using MS SharePoint 2007 and 2010.
- Recently was promoted as the only internal employee on a team of external consultants working on SharePoint technologies leveraging the software development lifecycle and agile software development methodologies.

Automation Analyst, Client Services Group (August 2010- December 2013)

- Designed and implemented business applications using SharePoint 2007, Nintex Workflow, Microsoft Report Builder (SSRS), SharePoint Designer 2007.
- Lead small project teams and was responsible for training end users on use of new SharePoint solutions, upgrades and bug fixes.
- Documented client solutions and success stories with internal personnel. Implemented the "Docs and Deliverables" page in SharePoint, which later became the skeleton for the "Grab-n-Go solution". Created the FAQ wiki; trained teams on use. Rebuilt SharePoint Designer workflow using new Nintex workflow platform.

LEADERSHIP**Alpha Phi Alpha Fraternity Inc., Chicago, IL**

March 2017 - Present

Webmaster and Editor to the Sphinx

- Build and maintain the Fraternity's website and ensure that members and guests have the most optimal user experience
- The Sphinx is the nation's second oldest African-American publication still in existence; I am responsible for writing articles that showcase key events and activities related to the fraternity within the Midwestern region

100 Black Men, Chicago, IL

January 2015 - Present

Member

- Commit to the intellectual development of youth and the economic empowerment of the African American community based on the following precepts: respect for family, spirituality, justice, and integrity
- Help drive awareness for our annual events such as the Holiday Toy Drive and the College Scholarship fair, which is one of the largest in the nation

COMMUNITY SERVICE**iMentor, Chicago, IL**

September 2016 - Present

Mentor

- Dedicate as much time as needed to one student that I mentor on a weekly basis
- Encourage my mentee and other students to achieve their dreams and aspirations and be a key resource for them as they navigate through high school and start the journey towards college and beyond

St. Mark United Methodist Church, Chicago, IL

August 2014 - Present

Youth Choir Director

- Direct the Sounds of Judah Choir during weekly rehearsals and monthly singing engagements
- Lead worship service each Sunday by playing the piano, keyboard and organ
