# HOLY SHIT NEWS!

## REEEE, FUCKHEADS!

This is madassgamer, reporting LIVE from PPV BACKLASH! Main event is Dean (Titty Master) Ambrose vs. "The Phenomenal One" AJ Styles for the World Title. Dunno who will win, but Wyatt better win against Randy Orton. Still, my first wrestling match I've ever attended. In a few words, "IT'S GONNA BALLIN'!"

HOLY SHIT! Even the goddamn sign makes no sense, since 2003!!!

"Every time you look at the sign, you discover something new..." a commentator named Else-dono said, thoughtfully rubbing his chin.

"=O whats this awesome sign?!" another local commentator named Chaos, host of the popular **FH IRON CHEF CONTEST** remarked. "you guys doing some IRL shit? :3"

In other news, UFC 203 has concluded. I'm not gonna go in-depth with it, because only 1 match did people care about. The match in question is CM Punk in his debut match against Mickey Gall and HA. Punk tapped. He got FUCKED in that match, but still he could kick my ass.

## SEGA DREAMCAST TURNS 17

Finally, the Sega Dreamcast turns 17 this week. Despite the fact that it couldn't play DVD's and that it died rather quickly \*cough\*PS2\*cough\* it was a pretty cool console. The controller looked weird as all Hell, but felt extremely comfortable and it's memory card was a little mini console.

Too bad it's dead and SEGA will most likely never go back to the hardware industry. It was defiantly a good swansong for SEGA's consoles. Play the shit outta yours if you can.

PS: SHENMMMMUUUUUEEEEE!!!!

## GERMAPHOBE ARMAGEDDON!

HOLY FUCK!!! EVERY GERMAPHOBE'S WORST NIGHTMARE HAS COME TRUE!!! The FDA has ruled that Anti-Bacterial soaps don't have that much benefits compared to regular soaps after doing research. The FDA has given manufacturers one year to change their products or else they will be pulled off the shelves. In this case, there's gonna be a germaphobe black market making illegal Anti-Bacterial soaps and/or buying the shit in bulk on clearance. For us, it's meh. However, for germaphobes, IT'S THE END OF THE GODDAMN WORLD, THEY'RE FUCKED!!!!

Death of innocent lives, wack ass conspiracy theories, making the US into sensitive lil shits, 9/11 is depressing! May everyone involved in 9/11 R.I.P (expect the people who bombed us, they can go fuck themselves!

A daring daylight raid on a SNES Vault nets our boys from the homefront a motherload of SNES games! After a rolling shootout, our A-Team managed to make off with several thousand kilobytes worth of rare SNES ROMs.

"Of course I'll upload them!" Yomu said. "What, do I look like the sort to not upload good vidya gaems? Uguu..."
