BOUNDLESS COLLECTION

dofine

Dofine is a creative designstudio specialized in wall- and floorfinishes. She works in the upper segment of the interiorworld and therefore she works with very well known Dutch (interior) designers /architects and suppliers from Europe.

Boundless is an innovative product with enormous advantages in contrast to more classic materials such as 'normal' plaster, plastic or wood. Boundless is a particularly light, dimensionally stable, non-flammable and environmentally friendly alternative with endless applications. Many shapes are possible and, thanks to the prefab production process, made quickly.

Boundless forms a seamless whole with plasterboard or plaster and fits perfectly with all standard walls and ceilings. Our GRG glass fiber reinforced plaster is the perfect product for those who dare to color outside the lines, are looking for creative freedom and opt for a quick approach with special results

BOUNDLESS PANELS

Mix of textures raw (01)

The use of these boundless panels creates a creative pattern with the combination of circles and squares. The alternation of coarse and smooth textures provides a rich contrast.

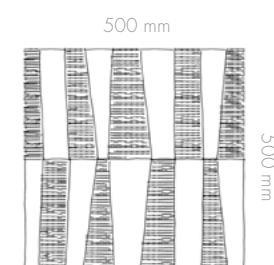

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly

Mix of textures raw (02)

A combination of scratched and flat parts creates an exciting effect with this boundless panel. By alternately applying both textures in sleek shapes, an exciting whole is created..

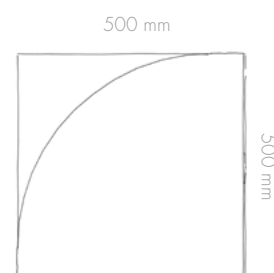

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly

Mix of textures (03)

By playing with the design of this boundless panel, endless combinations are possible with this completely smooth boundless panel.

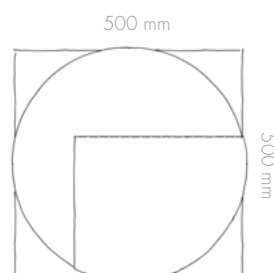

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly

Mix of textures (04)

Coarse and smooth textures alternate in this boundless design. Applying the panels in a pattern on the wall creates an exciting yet calm effect.

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly

Mix of textures (03)

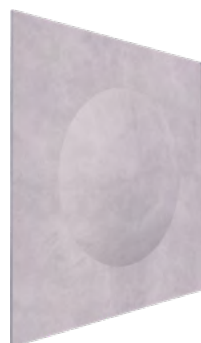

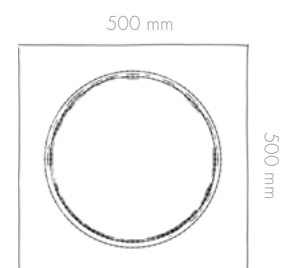

BOUNDLESS PANELS

Inner circle

The inner and out circle boundless panels are panels with inner explanatory circles. Perfect to use as a separately panel or in combination with each other.

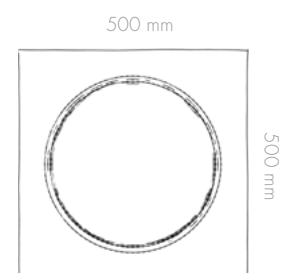

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly

Outer circle

The inner and out circle boundless panels are panels with inner explanatory circles. Perfect to use as a separately panel or in combination with each other.

Appearance: Mat
 Material: Gypsum + finishlayer
 Thickness: 40 mm
 Usage: Only indoor
 Wet area: Only indirectly
