KRISTALIA

Aria

Aria is a wardrobe and walk-in wardrobe system that allows a combination of different units.

The structure, with closed or through sides in Black or Champagne aluminium, can be closed by sliding or hinged doors in a choice of materials, also in aluminium with flush glass.

Wardrobes and walk-in wardrobes can be fitted with suspended or floor-standing drawer units, storage racks, glass and aluminium pull-out shelves, boxes and customised accessory holders.

In the Aria Grafica version, grip recess openings create interesting graphic effects.

Aria offers a unique design experience with its distinguished materials and a wide range of colours; every detail is customizable to create a unique and distinctive interior.

Aria rappresenta un innovativo sistema di armadi e cabine armadio che offre la possibilità di combinare tra loro diversi moduli.

La struttura, con fianchi chiusi o passanti in alluminio Nero o Champagne, può essere chiusa da ante battenti, scorrevoli o complanari in vari materiali, anche in alluminio con vetro a filo.

Armadi e cabine si possono attrezzare con cassettiere sospese o a terra, contenitori raster, ripiani estraibili in vetro e alluminio, scatole e portaoggetti personalizzati.

Nella versione Aria Grafica, le aperture a gola creano interessanti giochi grafici.

Con materiali raffinati e una vasta gamma di colorazioni, Aria offre un'esperienza di design senza limiti, dove ogni dettaglio è personalizzabile per creare un ambiente unico e distintivo.

Integration of the systems

Integrazione dei sistemi

You can design wardrobes with different types of opening. In addition, Novel and Novel Island collections are the ideal complement with the same finishes that grant a perfect matching.

È possibile progettare armadi che presentino ante con diverse modalità di apertura. Inoltre, le collezioni Novel e Novel Island costituiscono il complemento ideale, con finiture uniformi per garantire un coordinamento impeccabile.

Structure

Struttura

The structures of the wardrobes and walk-in closets consist of sturdy sides, durable back panels, solid tops and bottoms, and functional shelves. These components are designed to offer maximum versatility, allowing you to combine different configurations and create tailor-made solutions for any architectural context. The wardrobes have a variety of types of doors, each suitable for one of the three available opening systems. This flexibility allows you to customize every detail to fully meet the needs and style of the user.

Le strutture degli armadi e delle cabine armadio sono costituite da fianchi robusti, schienali resistenti, coperchi e basamenti solidi e ripiani funzionali. Questi componenti sono progettati per offrire la massima versatilità, consentendo di combinare diverse configurazioni e creare soluzioni su misura per qualsiasi contesto architettonico. Gli armadi, in particolare, presentano una varietà di tipologie di ante, ciascuna adatta a uno dei tre sistemi di apertura disponibili. Questa flessibilità consente di personalizzare ogni dettaglio per soddisfare appieno le esigenze e lo stile di chi lo utilizza.

Internal equipment

Attrezzature interne

Inside the closet and walk-in closet, an organization aimed at rationality reigns. Thanks to the equipment provided, each piece of clothing finds its ideal place, whether it is hung neatly or folded carefully, placed in a drawer or placed in dedicated trays. In Aria walk-in closet, the equipment is always in plain sight and can be positioned at a customized height to ensure maximum flexibility. Wall-hung or floor-standing drawer units, coat racks, shelves, trays and specialized containers flexibly adapt to everyone's order and display needs.

All'interno dell'armadio e della cabina armadio, regna un'organizzazione mirata alla razionalità. Grazie alle attrezzature fornite, ciascun capo di abbigliamento trova la sua collocazione ideale, che sia appeso ordinatamente o ripiegato con cura, sistemato in un cassetto o posizionato in vassoi dedicati.

Nella cabina armadio Aria le attrezzature sono sempre in bella vista e possono essere posizionate a un'altezza personalizzata per garantire la massima flessibilità. Cassettiere sospese o a terra, appendiabiti, ripiani, vassoi e contenitori specializzati si adattano con flessibilità alle esigenze di ordine ed esposizione di ciascuno.

Doors

Ante

Aria offers a wide range of door types, from the most practical to the most refined options.

The available doors are made of high-quality materials, including aluminum and glass, offering a wide selection to suit every style and preference.

The design flexibility is further expanded by the possibility of combining the doors with different types of openings, such as hinged, sliding or coplanar.

Aria presenta una vasta gamma di tipologie di ante, dalle opzioni più pratiche a quelle più raffinate.

Le ante disponibili sono realizzate con materiali di alta qualità, tra cui alluminio e vetro, offrendo così una selezione diversificata per soddisfare ogni stile e preferenza.

La flessibilità di design è ulteriormente ampliata dalla possibilità di combinare le ante con diverse tipologie di aperture, come battente, scorrevole o complanare.

Handles

Maniglie

Available in various shapes and sizes, recessed or applied, in contrast or in the same finish as the door, the handles are a combination of aesthetics and functionality.

Despite their modest size, they play a fundamental role in the overall aesthetics of the wardrobe.

Disponibili in varie forme e dimensioni, incassate o applicate, in contrasto o nella stessa finitura dell'anta, le maniglie costituiscono un connubio di estetica e funzionalità.

Pur nella loro modesta dimensione, rivestono un ruolo fondamentale nell'estetica complessiva dell'armadiatura.
