For free, expert car care advice

PROFESSIONAL

ULTRA POLISHING WAX

D166

- Save time and money rapidly removing defects and protecting paint in one step
- Super-Micro Abrasive Technology polishing agents provide uniform, fast cutting

FOR PROFESSIONAL USE ONLY. NOT INTENDED FOR RETAIL SALE.

BODY SHOP SAFE

DIRECTIONS: SHAKE WELL. Work in the shade on a cool surface. Apply product to your pad or disc of choice and spread evenly across the entire surface. Work a 2'x2' area at a time, applying light to moderate pressure. For each successive pass, apply just 3-5 drops of product to the pad/disc surface and work the area with overlapping passes until high-gloss surface is achieved. Remove residue with a Meguiar's® X2020 Supreme Shine™ microfiber towel.

PROFESSIONAL TIPS: Clean disc frequently using Meguiar's® Pad Conditioner Brush (WPCB), or compressed air via a regulatory approved nozzle.
