# HOW TO USE

Thank you for your purchase of the Style Your Life Planner. I hope your digital planner is the perfect compliment to your life planning.

This planner is designed to be like a physical paper planner. This planner is undated so you can use it year after year.

You'll find tabs for everything. Each month has a monthly, weekly, daily, and hourly view plus a notes, projects, list and goal setting tab.

Within each month view, you'll find links to everything within that month. Each month has its own set of weeks, days, hours, goals, projects, lists, and notes. Each month has 5 weeks on monthly and weekly views for months that go beyond 4. Each monthly also has enough days based on the month. For example, September has 30 "day views" where as January has 31.

For pages like "notes," "goals," "projects," and "lists" you can duplicate those pages to have as much free-form space to write as you need.

There is also a video tutorial available in the Style Your Life Planner help page on my site to teach you how to install and use this planner in Goodnotes 5. This is especially helpful for people who are new to Goodnotes that may not know some of the features Goodnotes has to make integrating a calendar into it easy and helpful.
