Results-driven Web Developer with hands-on experience in full-stack and mobile application development, specializing in Laravel, Next.js, React Native, Supabase, and responsive web technologies. Proven track record of developing POS systems, optimizing web application performance by 40%, and delivering scalable web and mobile solutions across freelance and corporate projects. Brings strong expertise in frontend and backend development, database integration, and Agile collaboration, helping organizations build efficient, user-friendly digital platforms that improve operational performance and user experience.

WORK EXPERIENCE

SENIOR FULL-STACK DEVELOPER

Ino Creative Ltd. (London, UK) | November 2025 – February 2026 (4 Months)

- Managed full-stack architecture and development for admin tools and dashboards, implemented authentication and role-based access systems, enforced Git workflows and release management practices, and improved code quality through refactoring and defensive programming.

AI DEVELOPER/FULL-STACK DEVELOPER

ServingIntel (Oakland Terrace, IL) | August 2023 – November 2025 (2 Years, 4 Months)

- Developed AI-powered chatbots and APIs including AI avatars and NLP-to-SQL systems, collaborated on feature implementation and bug fixes, utilized Docker and Azure App Service for deployments, and maintained scalable web application architectures.

LEAD FULL-STACK DEVELOPER

CreditBPO | May 2025 – July 2025 (3 Months)

- Rebuilt an SME financial matching platform using Next.js and MongoDB, designed system architecture and matching logic, implemented real-time messaging and secure authentication, and integrated PayPal and DragonPay payment systems.
