# ALHYDRAN

## Special Care

For many years, ALHYDRAN has proven itself as a cream for burns and scars. The medical cream is used by physicians and skin therapists worldwide for the treatment and aftercare of vulnerable skin.

Due to its unique combination of high-quality ingredients, ALHYDRAN medical cream has three key characteristics:

- 1) It attracts water from deeper skin layers**  
Because of humectants, such as Aloe Vera Gel.
- 2) It prevents your skin from excessive moisture loss**  
Because of occlusives, such as natural oils.
- 3) It makes the skin soft and smooth**  
Because of emollients, such as Jojoba oil.

### **Proven medical formula**

The scientifically and clinically proven ALHYDRAN formula ensures optimal and lasting hydration of the vulnerable skin, helping the skin recover itself. This reduces skin complaints, calms the skin and makes the skin feel soft and smooth.

## Special Care product line

### Eczema Care

Reduces symptoms of eczema

### Anti Itch Care

Relieves itching

### Cracked Dry Skin Care

Repairs and comforts (extremely) dry skin

### Barrier Repair Care

Strengthens and restores the effects of professional skin treatment

## Care with something extra

ALHYDRAN Special Care product line offers four new products that are based on the trusted medical cream. Each cream is developed specifically to relief skin complaints associated with a specific skin problem.

In addition to the proven ALHYDRAN formula, each Special Care product contains other high-quality ingredients that contribute to skin recovery.

# ALHYDRAN

## Eczema Care

ALHYDRAN Eczema Care is a hormone-free cream that is developed to reduce and relief symptoms of eczema, such as itching, redness, dry skin, and a burning feeling.

The cream softens and soothes stressed skin, immediately calming the skin. It is suitable for long-term use. Structural use of the cream contributes to prolonging eczema-free periods and helps prevent eczema flare-ups. ALHYDRAN Eczema Care is suitable for all skin types.

*"The itching of my eczema was reduced immediately and my skin feels smooth again."*

Sanne

## Indications and application

- Softens and soothes stressed skin
- Helps prevent eczema flare-ups
- Supports skin that is sensitive and prone to redness
- Preventative treatment for irritated skin, that is itchy and/or flaky
- Supports repair of the skin in case of sun allergy

## Active ingredients

Aloe Vera Gel	For intensive and lasting hydration
Urea	Hydrates and nourishes the skin
Lactic acid	Helps repair the skin
Glycyrrhetic acid	Reduces sensitivity of stressed skin

# ALHYDRAN

## Anti Itch Care

ALHYDRAN Anti Itch Care is a hypoallergenic cream that is developed to have an immediate cooling effect on the skin. It calms the skin and relieves itching.

One of its ingredients is iCOOL ML, which has a strong cooling and anti-itching effect and does not have the allergenic characteristics that Menthol does. ALHYDRAN Anti Itch Care is suitable for all skin types and skin conditions that cause itching. It also relieves itching caused by insect bites.

*"The itching and flakes on my legs were reduced within only a few days. I was very happy with the cream."*

Hanne

## Indications and application

- Relieves itching
- Reduces the urge to scratch and the burning feeling caused by scratching
- Cools the skin
- Soothes red, itching skin

## Active ingredients

- Aloe Vera Gel  
Intensive and lasting hydration
- iCOOL ML (Menthyl lactate)  
Cools the skin and relieves itching  
*(iCOOL ML is a non-allergenic alternative to Menthol)*

# ALHYDRAN

## Cracked Dry Skin Care

ALHYDRAN Cracked Dry Skin Care is an intensive cream that is developed to nourish, soften and repair (extremely) dry skin, such as hands, feet, and heels.

The cream reduces flaking and repairs cracked skin. It provides lasting hydration, making the rough skin smooth and soft again. ALHYDRAN Cracked Dry Skin Care is suitable for all skin types and skin conditions that cause (extremely) dry skin.

*"The cracks in my skin  
healed quickly.  
My skin feels less tight  
and is nicely hydrated."*

*Karin*

## Indications and application

- Helps prevent flakes and cracks caused by (extremely) dry skin
- Helps prevent (extremely) dry skin with regular use
- Supports skin that feels tight and needs extra nourishment

## Active ingredients

<b>Aloë Vera Gel</b>	Intensive and lasting hydration
<b>Shea butter</b>	Softens and improves dry skin
<b>Bisabolol</b>	Calms the skin
<b>Panthenol</b>	Hydrates the skin

# ALHYDRAN

## Barrier Repair Care

ALHYDRAN Barrier Repair Care cream is developed to repair and strengthen the skin barrier after professional (medical) treatments.

The cream provides optimal and lasting hydration, softens and strengthens the natural skin barrier, and soothes the skin immediately. ALHYDRAN Barrier Repair Care is suitable for all skin types after professional skin treatments, such as peeling, laser treatments, medical treatments, or cosmetic treatments.

*"My skin was damaged and sensitive after the IPL treatment. This cream offered good and quick recovery. Highly recommended!"*

Alexandra

## Indications and application

- Aftercare for recent (professional) skin treatments, such as:
  - after chemical peeling and laser treatments
  - after medical or cosmetic treatments
  - during or after treatment with medical cosmetics
- Preventative care for irritable or sensitive skin
- As a booster: by applying a thin layer underneath day or night cream

## Active ingredients

<b>Aloe Vera Gel</b>	Intensive and lasting hydration
<b>Beta-glucan</b>	Reduces redness and calms the skin
<b>Bisabolol</b>	Calms the skin
<b>Allantoin</b>	Reduces irritation and supports skin healing
