Reliable Access Solutions...

— “*Safe , Stable & Secure*”

About Us

Quad Dream is one of the leading providers of scaffolding solutions since 2012, catering a large number of companies in UAE for Scaffolding requirements.

In this new millennium where construction activities are significant across the globe it is essential to source materials and other such construction related equipment from experienced, trusted, time tested and quality conscious manufacturers complying with international safety norms and standards. It is imperative that logistics is sticking with stringent delivery schedules are also important to facilitate timely availability of necessary equipment in construction.

Our Services

Scaffolding Contract Services

- » Scaffold Access Tower
- » Tank Internal & External Scaffold
- » Scaffolding Staircase
- » Heavy Duty Scaffold
- » Scaffold Design and Load Calculations

Cup lock Scaffoldings – Rental & Sales

- » Scaffolding Cup lock System
- » Slab Support (Decking & H 20 Systems)
- » Tubes & Fittings
- » Scaffolding Boards (Steel, LVL & Normal Scaffold Boards)

Aluminium Scaffoldings – Rental & Sales

- » Aluminium Mobile tower
- » Aluminium Foldable tower
- » Aluminium Foldable Podium
- » Aluminium Ladders

Mission and Vision

VISION

While attaining the leadership in Scaffolding acces services, Quad Dream strives to be the most reliable Innovative Supplier and Service Provider in Building Contracting, Electromechanical, Oil & Gas and Power Sector by providing the best solutions and Services in the industry.

MISSION

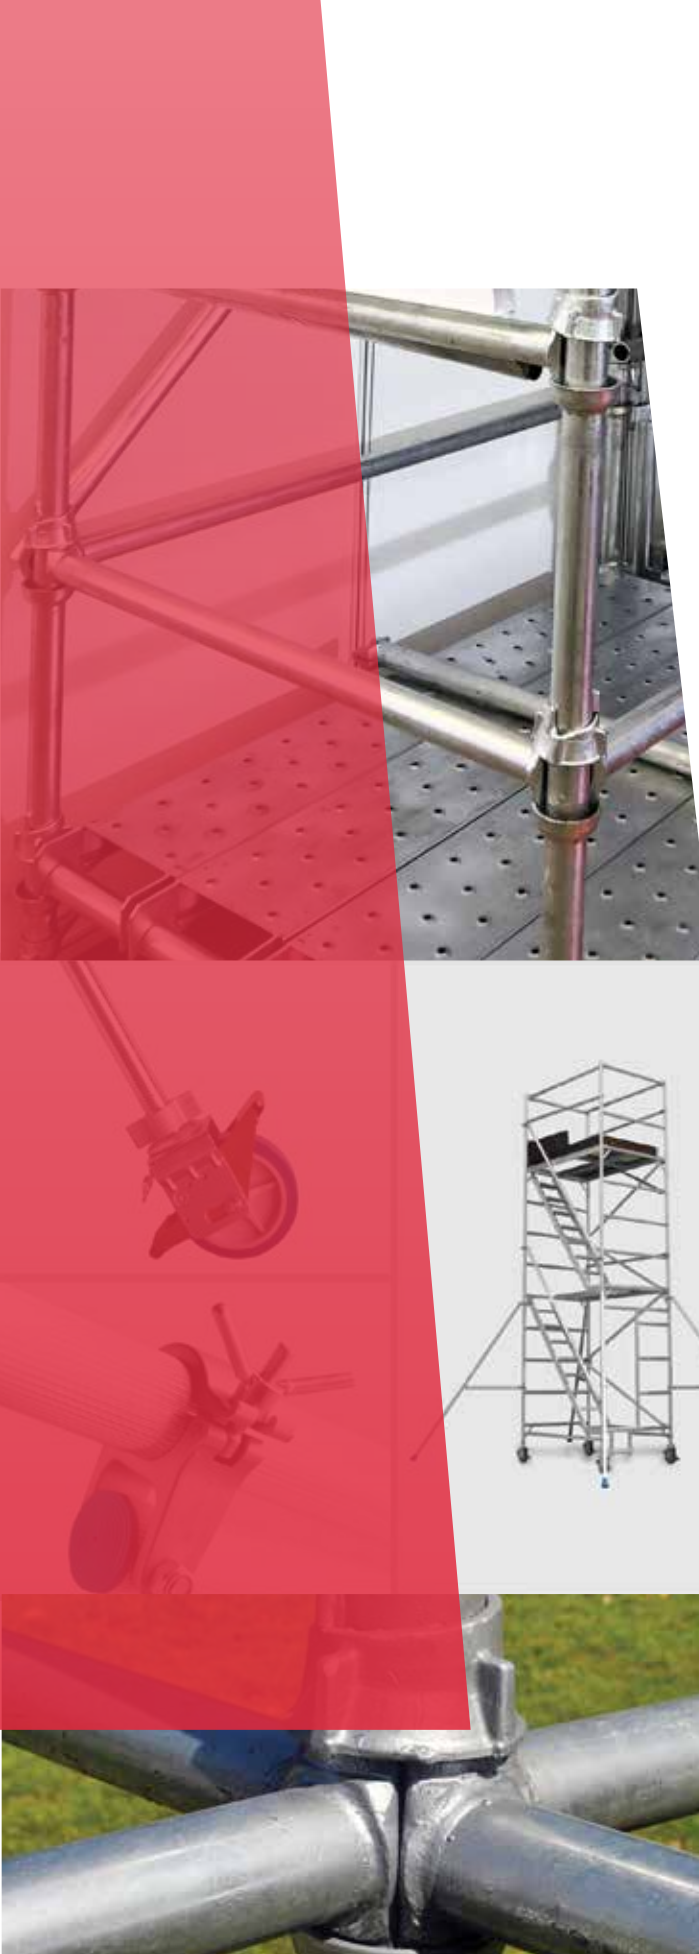

- Sharing of Interest, ideas, strategies, best practices.
- Delivering best quality of materials and access services
- To be a Customer Friendly company and most preferred company in Building Contracting, Interiors, Event Management Oil & Gas, Power and Petro-chemical related in Supply of products / Equipment & Providing Innovative services.
- Most Preferred employer

Health & Safety

At Quad Dream, Health and safety is at the forefront of everything we do. We are passionate to ensure we provide a safe working environment for our workforce, other contractors and members of the public. Here at Quad Dream we don't just work to industry standards, we surpass them, we continuously engage with our safety consultants and trade associations to continue to develop and improve therefore ensuring safety is paramount throughout the business. We continue to promote and reward our employee's contributions through our ongoing safety initiative schemes therefore encouraging involvement from all of our employees. We carry out a wide spectrum of training on a regular basis to ensure they have the skills, knowledge and confidence to carry out all works safely, every member of our team receive an individual training review where specific training is identified and planned for the coming year, such as confined space training, rescue training and behavioral training.

QUAD DREAM

Quality

Health and safety in our industry begins with the product, as we have one of the largest stock of scaffold materials adhering to DM code of practice.

Materials

We hold a vast stock of genuine Cuplock system scaffolding in UAE and the components are regularly assessed and tested for safe performance our workforce the confidence and reassurance in the product for use. This technically advanced system allows for significant productivity gains over tube and fitting scaffolds and other systems scaffold. This systems has enhanced safety through the use of purpose-designed components.

Environmental Policy

We all have a responsibility to reduce our impact to the environment, together we can make a difference'

Quad Dream Scaffolding is committed to:

- Caring for the environment and the prevention of pollution
- Operating the business to the environmental systems required
- Abiding by all relevant environmental legislation and applicable requirements
- Working with suppliers to promote positive environmental actions
- Minimising waste, promoting recycling, reducing energy and raw material consumption, and reducing harmful emissions
- Continually improving our environmental performance by setting objective actions and targets

Profile

As the most obvious benefits that our customer receives are higher quality products/services. The standards established show a clear benchmark on specifications and expectations on our customers and suppliers. Quad Dream is capable to offer products & services distinctively matched to the customer's exact requirements. We accept contracts & material supplies ranging from few thousands to several million AED in the following areas-

- ✓ Electromechanical Companies
- ✓ Steel Works
- ✓ Insulation Companies
- ✓ Events and Stages
- ✓ Oil and Gas onshore
- ✓ Power Generation and Utilities
- ✓ Onshore and Offshore Maintenance
- ✓ Oilfield Contractors
- ✓ Interior Decorators
- ✓ Lighting Suppliers
- ✓ Construction & Contracting
- ✓ Offshore Installation
- ✓ Water Treatment/Desalination Plants
- ✓ Petro-chemical Works

Scaffolding Contracting services

Quad Dream Contracting division is a specialist access solution provider, undertaking projects on contract design and engineering or hire and sale basis throughout the construction, industrial and oil and gas sectors.

Since its Inception in 2012, Quad Dream is one of the leading providers of scaffolding access solution catering a large number of companies in the UAE.

Quad Dream is committed to providing specialist scaffold services that include expert design, supply erection and dismantling of scaffolding employing highly qualified and experienced scaffolding operatives and staff. We are specialized in providing scaffolding solutions for varied purpose in different industries adhering to the standards put forth by local and international entities.

All aspect of our service are carried out in a professional manner with safety being our top priority.

Our range of comprehensive scaffolding services includes:

- » Independent Access Scaffold
- » Birdcage Access Scaffold
- » Tank Internal & External Scaffold
- » Special duty/Heavy Duty Scaffold
- » Demolition Scaffold
- » Cup lock Staircase Scaffold
- » Scaffolding Planning & Design
- » Scaffold Hire

Service is just as important as quality and we have designed our business to fit UAE Construction perfectly with depots based strategically throughout different emirate enabling a faster response. We believe our success is the direct result of our highly motivated direct-employed workforce and our collaborative partnering approach with our clients.

Engineering Design and Load Calculation

Quad Dream is best known for the precise & professional scaffold design and calculations, a service provided for all major scaffold requirements.

Design and Load calculations provide a clear idea of the scope of work that is to be executed and the actual load that is allowed to be on the installed scaffold unit.

All our design and Calculations meet UAE and Uk Guidelines BS EN 12811-1.

Scaffolding Cuplock System

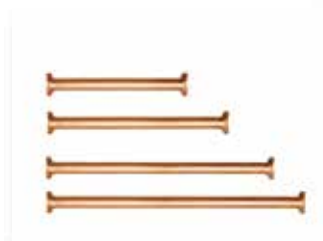

CUP LOCK - BASE JACK

The pipe is of Hot Rolled Steel as per BS-1139 Standard, The Jack Nut of SG Iron Castings. Made from pipe of 38mm OD x 650mm Height. The Breaking Load is 10 Tons.

CUP LOCK - STANDARD

Tubes used for manufacturing of cuplock system conforms to BS- 1139, tubes used are mild steel 3.2 mm thick.

CUP LOCK - LEDGER

Tubes used for manufacturing of cuplock system conforms to BS- 1139, tubes used are mild steel 3.2 mm thick.

CUP LOCK - TRANSOM

Tubes used for manufacturing of cuplock system conforms to BS- 1139, tubes used are mild steel 3.2 mm thick.

TUBES

Hot dipped galvanized scaffolding tube conforms to BS- 1139.

CUP LOCK - SPIGOT PIN WITH NUT & BOLT

Made from Pipe of 38mm OD x 4mm and height is 300mm, Available with a pair of Bolts and Nuts.

CUP LOCK - CANTILEVER 'A' FRAME

Made from 48.3mm x 3.2mm pipe, available in 1mtr and 1.5mtr.

CUP LOCK - BEAM BRACKET

Made from 48.3mm x 3.2mm pipe, available in 1mtr and 1.5mtr.

UNIVERSAL JACK

The Pipe of Hot Rolled Steel as per BS-1139 Standard. Made from 38mm x 4mm pipe, 650mm length.

ADJUSTABLE U HEAD

Made from 38mm x 4mm pipe, 650mm length, the size of U is 150 x 170 x 125 x 100, 5, 6, 8 mm.

FIXED U HEAD

Made from 38mm x 4mm pipe, 100mm length, the size of U is 150 x 170 x 125 x 100, 5, 6, 8 mm.

DROP HEAD

The Main component of the Decking System used over each standard with a socket adaptor. Made from Sheeted components, The Critical Height is 70mm.

SOCKET BASE

Made from 48.3mm x 3.2mm pipe, the height is 100mm and the plate is 150 x 150 x 6 mm.

DECKING BEAM

The Primary Beam that is used with the Drop Head to form the Decking System. Made from Sheeted components, used with Drop head, the sheet thickness is 3mm and available in lengths of 1.2mtr, 1.8mtr and 2.5mtr.

INFILL BEAM

The Secondary Beam used with the Decking Beam to form the Decking System. Made from Sheeted Components, used with Decking beams and the sheet thickness is 2mm and available in various lengths.

UNIVERSAL CLAMP

This is used to hold the Primary and the Secondary I- sections together. Made from 4mm thick sheet with the Carriage bolt of M12 x125 mm.

BASE PLATE

Made from Plate of Low carbon steel to support the Standards and Ledgers. Made from pipe of 38mm x 100mm, welded with a plate of 150 x 150 x 6 mm.

SWIVEL JACK

Made from Pipe joint with the plate with fasteners so that we can move the pipe in 180 degrees. Made from pipe of 38mm x 4mm x 650 mm height.

TOP CUP

Made from Malleable Casting. Top Cup is available for the pipe of 48.3mm OD and in 3lugs and 4lugs.

BOTTOM CUP

Made from Low Carbon Steel Bottom Cup is available for the pipe of 48.3mm OD.

TOP CUP 4 LUGS FORGED

Made From Forged Steel. Used With 48.3mm Scaffolding Pipe.

SCAFFOLDING CUPLOCK SYSTEM

QUAD DREAM

Scaffolding Boards

SCAFFOLDING - WOODEN BOARDS

As per BS 2482 with end bands. Boards are 38 mm thick, 225 mm width and length of 4 m, 3 m, 2 m etc.

SCAFFOLDING - LVL BOARDS

LVL Boards as per OSHA Std. Boards are 38 mm thick, 225 mm width and length of 4 m, 3 m, 2 m etc.

SCAFFOLDING-STEEL BOARDS WITH HOOKS

Boards are 38 mm thick, 225 mm width and length of 4 m, 3 m, 2 m etc.

H20 TIMBER BEAMS

Are in particular very practical due to its easy handling, low weight, and excellent statical figures. Available in length 2.0 m, 3.0 m, 4.0m etc.

Aluminium Mobile Tower

QUAD mobile aluminium towers are light - weight scaffold towers used throughout the building and construction industry for both indoor and out-door access solution where a stable and secure platforms requires. Ideal for maintenance and installation work or short terms access, the highly versatile towers provide stern working platform for a variety of heights.

QUAD DREAM

Aluminium Scaffolding

ALUMINIUM COMPONENTS MOBILE TOWER

COMPONENTS OVERVIEW

CASTER WHEEL

Height adjustable leg with foot operated breaks.
Sizes: 300mm

BRACES

Color coded Horizontal & Diagonal braces for easy erection and identification with self locking hooks

LADDER FRAME

2m / 2.5 m frames with built-in ladder

PLAIN FRAME

2m / 2.5 m Plain Frame

TRAP DOOR PLATFORM

2m / 2.5 m Anti-slip Platform with Self Locking Door

PLAIN PLATFORM

2m / 2.5 m Anti-slip Platform

WOODEN TOE BOARD

Aluminium Toe-Board as per choice

STABILIZER

2m / 4m / 6M Stabilizers

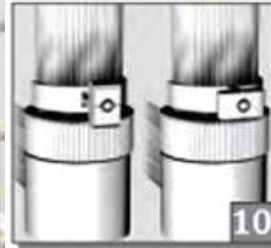

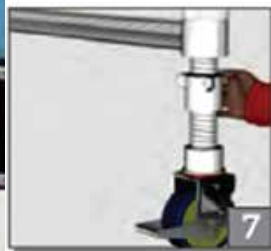

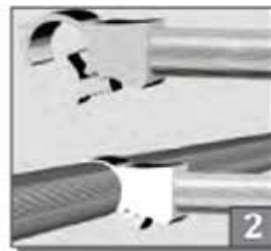

GUARD RAIL

1m Guard Rail

QUAD SCAFFOLDING MOBILE TOWER

QUAD DOUBLE WIDTH SCAFFOLDING MOBILE TOWER

ALUMINIUM SCAFFOLDING

FOLDABLE TOWER

ACCESSORIES

- ◆ 15 cm dual break castor wheel fixed
- ◆ 72 cm wide 6 rung foldable frame
- ◆ 72 cm wide 3 rung guardrail frame
- ◆ 155 cm long trapdoor platform
- ◆ 155 cm long brace horizontal
- ◆ 162 cm long brace diagonal
Snap pins

HOW TO ASSEMBLY

- ✓ Ensure all castor are fixed & locked
- ✓ Open folding frame and engage the lock
- ✓ Fix the diagonal brace to stabilize the tower
- ✓ Fix the trapdoor to access the platform
- ✓ Fix the guard rail
- ✓ Arrange the Toe Board

SAFE WORKING LOAD CAPACITY 250KG

CERTIFICATION

Quad Dream Foldable Tower
is Certified By TUV Rheinland

ALUMINIUM SCAFFOLDING

FOLDABLE PODIUM

ACCESSORIES

- ◆ 15 cm dual break castor wheel fixed
- ◆ Foldable Podium Frame
- ◆ Wooden Aluminum Step
- ◆ Wooden Platform
- ◆ Movable Braces

HOW TO ASSEMBLY

- ✓ Unfold the unit, open the gate braces and square the unit.
- ✓ Fit the platform on the rung.
- ✓ Place unit in work position and lock all castors.
- ✓ Enter platform, close gate braces in their locations ensuring that the brace hooks are fully engaged.

SAFE WORKING LOAD CAPACITY 250KG

CERTIFICATION

Quad Dream Foldable Tower
is Certified By TUV Rheinland
