EXPERTISE SKILLS

- Software Engineering
- Frontend Development
- Full Stack Development
- Blockchain Development
- Mobile App Development
- UI/UX Development
- API Development & Integration
- GraphQL Development
- Real-Time Chat System Development
- Dashboard Development
- Agile Methodology
- Code Review
- System Deployment
- Software Development Lifecycle (SDLC)
- Cross-Functional Collaboration
- Mentorship & Technical Guidance

TOOLS

- ReactJS
- Next.js
- React Native
- TypeScript
- GraphQL
- Socket.io
- Ruby on Rails
- PostgreSQL
- MongoDB
- Express.js
- AngularJS
- Node.js
- PHP

Results-driven Web Developer with 9+ years of experience in full-stack development, specializing in React, Next.js, Ruby on Rails, GraphQL, and modern web technologies. Proven track record of building scalable web and mobile applications, developing custom dashboards and fintech solutions, and delivering high-performance systems that improve user experience and operational efficiency. Brings strong expertise in frontend and backend development, API integration, and agile collaboration, helping organizations create innovative digital products and achieve reliable, scalable technology solutions.

WORK EXPERIENCE

INTERMEDIATE FRONTEND ENGINEER

ZIP Financial Technologies Inc. | June 2024

- Contributed to BPI digital transformation projects by analyzing business requirements, designing custom user interfaces, and collaborating with cross-functional teams using Next.js and TypeScript.

BLOCKCHAIN DEVELOPER

Viridian Technologies | May 2023 – April 2024 (1 Year)

- Developed blockchain-based platforms including event and ID management systems, DeFi wallet solutions, admin dashboards, and real-time chat systems using React, Next.js, GraphQL, and Socket.io.

SOFTWARE ENGINEER

Proudcloud | March 2020 – May 2023 (3 Years, 3 Months)

- Worked as a full-stack mobile and web developer, designed scalable solutions, collaborated with development teams, mentored junior staff, and delivered tested applications using Ruby on Rails, React, and GraphQL.

SOFTWARE ENGINEER

GOHISO | February 2018 – March 2020 (2 Years, 2 Months)

- Maintained and enhanced application functionality, developed APIs using Ruby on Rails and GraphQL, and created UI/UX designs from scratch.
