- HTML
- CSS
- JavaScript
- PHP
- jQuery
- Figma
- Adobe XD
- Adobe Photoshop

Results-driven Web Developer with 7+ years of experience specializing in WordPress development, front-end development, and custom website solutions using HTML, CSS, PHP, JavaScript, and jQuery. Proven track record of building and maintaining responsive WordPress websites, converting Figma and PSD designs into fully functional web experiences, implementing Advanced Custom Fields (ACF) and Custom Post Types (CPT), and optimizing website performance through ongoing maintenance and troubleshooting. Brings strong expertise in WordPress, front-end development, theme customization, UI/UX implementation, and website maintenance, helping organizations deliver scalable, high-performing websites that enhance user experience and support business growth.

WORK EXPERIENCE

FRONTEND WEB DEVELOPER

Echo Web Solutions | November 2022 – Present (Ongoing)

- Developed and maintained WordPress websites using HTML, CSS, PHP, JavaScript, and jQuery, built custom websites with Advanced Custom Fields (ACF) and Custom Post Types (CPT), edited WordPress themes and plugins, and provided ongoing website maintenance and support.

WEB DEVELOPER

Mindfuse Inc. | October 2019 – October 2022 (3 Years, 1 Month)

- Converted PSD and Figma designs into responsive WordPress websites, managed front-end and back-end website development, maintained and troubleshooted websites, and contributed to UI/UX design improvements.

FRONTEND DEVELOPER (INTERN → JUNIOR DEVELOPER)

Miyens Technologies | July 2018 – September 2019 (1 Year, 3 Months)

- Built WordPress websites using Divi, Elementor, and Enfold theme builders, maintained WordPress websites, and created e-learning modules using Articulate Storyline.
