TOOLS

- HTML
- CSS
- JavaScript
- TypeScript
- Node.js
- Python
- PHP
- Google Apps Script
- React
- Next.js
- Vue.js

Results-driven Web Developer with 6+ years of experience in full-stack development, specializing in Laravel, Symfony, React, Vue.js, Node.js, and RESTful API integration. Proven track record of building scalable business systems, optimizing frontend user experiences, and implementing CI/CD pipelines and automation workflows to improve deployment efficiency and system performance. Brings strong expertise in responsive web development, cloud-based tools, and database management, helping organizations deliver reliable digital solutions that enhance productivity, streamline operations, and support business growth.

WORK EXPERIENCE

FULLSTACK WEB DEVELOPER

Mighty Waggers | September 2025 – September 2026 (1 Year)

- Increased organic traffic through technical SEO and Core Web Vitals optimization, redesigned UI for mobile responsiveness, improved page speed, and developed an automated booking system to streamline appointments and increase inquiries.

FULLSTACK WEB DEVELOPER

Arise Construction | November 2025 – April 2026 (6 Months)

- Built a centralized project management dashboard using the PERN stack, optimized PostgreSQL queries and caching, and developed RESTful APIs capable of handling high daily request volumes.

CMS DEVELOPER

Spiralytics Inc. | June 2025 – October 2025 (5 Months)

- Maintained high-traffic client websites, implemented CRM lead-capture workflows, optimized plugins and security, and developed reusable Elementor components to improve deployment efficiency.

UI/UX INTERN

Pixel8 Solutions | June 2025 – July 2025 (2 Months)

- Built design systems and reusable Figma components, created high-fidelity prototypes for A/B testing, and collaborated with developers to ensure accurate implementation.
