

Exploring Creation with Biology, 3rd Edition – Errata File

This file contains the corrections for the 8th (February 2024) Printing, of the **Textbook**. The printing for the Solutions and Tests Manual and Student Notebook may not be the same as the Textbook. Corrections for the Solutions and Tests Manual and Student Notebook are in separate files. (Posted 2024).

Clarifications:

Page 10 – The answer to On Your Own question #1.1 can be found in the section “The Limitations of Science” following the questions.

Page 192 – Add the following clarification after the first sentence:

“...so it doesn’t require energy. **Remember, this is called facilitated diffusion, a form of passive transport.** As ATP synthase rotates...”

Page 268 – Insert the following clarification between the 3rd and 4th sentences of the first full paragraph as follows:

“is dominant or recessive). **A shaded circle or square indicates the individual shows the genetic trait being studied.** Look at Figure 7.11...”

Page 298 – at the top of the page ‘This’ refers to ‘**Complementary base pairing...**’
