

Test your memory with Uni the Unicorn!

With the help of an adult, cut out the 16 squares below to make your very own *Uni the Unicorn* matching game. Place the squares face down on a flat surface, scrambled. Next, turn two over. If they match, keep them facing up; if not, flip them over again. Play with a friend (most matches win, but who's counting) or play solo and see how quickly you can make all eight matches.
