YANGWANG ALTIOR | FLAGSHIP EXECUTIVE SEDAN

EXTERIOR DESIGN

Inspired by the ancient Chinese bronze ding (鼎)
A near-vertical front end and a short front overhang.

01
GRILLE
Individually polished, jewellery-inspired elements frame the emblem

02
WELCOME LIGHTS
12 elements light up in sequence, from the edges to the centre

03
TWIN CHARACTER LINES
Two parallel lines extend 4.8 metres along the body

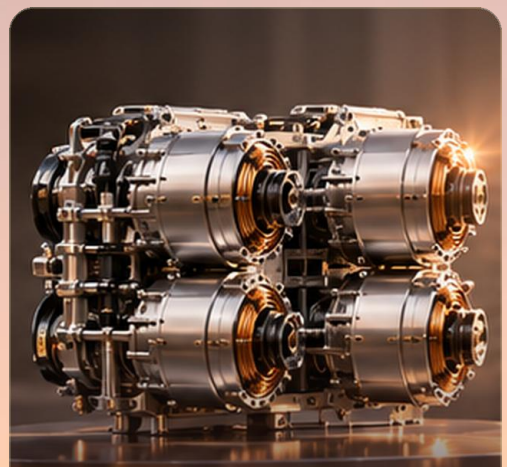

04
21-INCH WHEELS
Three designs with 275/45 R21 tyres

05
COACH DOORS
Front doors open up to 80°, rear doors up to 90°

CORE TECHNOLOGY

YANGWANG ALTIOR

KEY PRODUCT HIGHLIGHTS

e⁴ PLATFORM

Four independent motors adjust drive force at each wheel more than 100 times per second.

DiSus

Active suspension reads the road ahead and controls body movement across six degrees of freedom.

GOD'S EYE A

Assists with parking-space-to-parking-space navigation and parking.

BLADE BATTERY 2.0

Second-generation Blade Battery with over 1,000 km of CLTC range.

FLASH CHARGING

BYD's high-speed charging technology.

YANGWANG ALTIOR

INTERIOR EXPERIENCE

4-SEAT EXECUTIVE LOUNGE

01 REAR LOUNGE

- 1,209 mm of rear legroom
- Two zero-gravity seats, four massage heads each
- One touch: recline, leg rests, blinds, soft light

02 ENTERTAINMENT

- 21.4-inch powered overhead screen
- 39-speaker Dynaudio sound system
- 5.5-litre rear fridge that chills or warms

03 CRAFTSMANSHIP

- Full-grain semi-aniline leather, wood, silk and wool
- Pure-wool floor mats, jewellery-inspired controls
- Diamond-quilted seats in a symmetrical cabin

SAFETY & CAPABILITY

YANGWANG
ALTIOR

BEYOND A LIMOUSINE

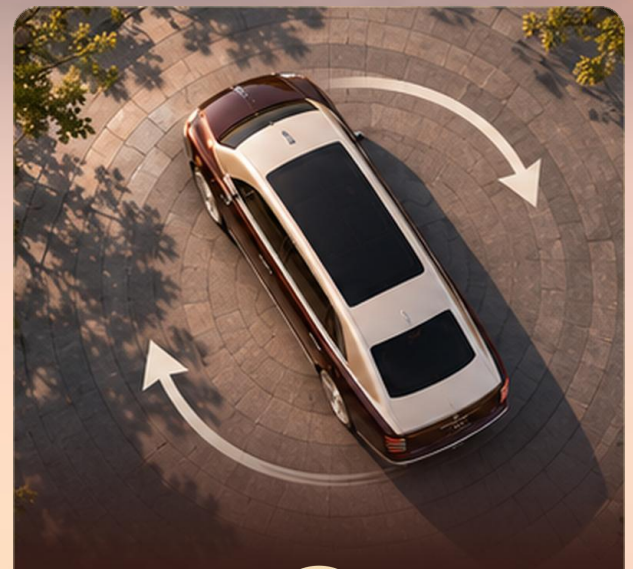

BLOWOUT CONTROL

Helps maintain stability during a high-speed tyre blowout.

EMERGENCY FLOTATION

Provides temporary flotation if the car accidentally enters water.

TANK TURN

Four independent motors allow the car to turn on the spot.

ROAD PREVIEW

DiSus reads the road ahead to reduce vibration and limit body roll in corners.

Range on the CLTC test cycle

4 motors

Independent wheel control and on-the-spot turns

399 cars

Worldwide production run for the Shanhe Dingyun

Information as of 13 November 2026

INITIAL IMPRESSIONS

OUR VERDICT
YANGWANG ALTIOR

The rear seats are the ALTIOR's strongest feature. Passengers get two individually adjustable seats with one-touch controls, finely crafted materials and 1,209 mm of legroom. At 5.6 metres long, the car also demands some planning when parking in the city.

STRENGTHS

- 5.6 m body with about 1.2 m of rear legroom
- Over 1,000 km CLTC range and FLASH Charging
- Stability after a tyre blowout; on-the-spot turns
- Emergency flotation, unusual in this segment
- God's Eye A parking-space-to-parking-space assist
- Semi-aniline leather, jade and 39 Dynaudio speakers

POINTS TO CONSIDER

- Power output yet to be announced
- Battery capacity yet to be disclosed
- CNY 2.08m is indicative, for the Shanhe Dingyun
- Delivery date yet to be announced
- European availability unconfirmed
- First edition limited to 399 cars
- A relative newcomer to ultra-luxury
- Ride comfort and cabin noise need a road test

YANGWANG
