Elevate your experience with this end table featuring a warm, mid-century modern aesthetic, characterized by its deep finish and sculptural design.

This handcrafted end table, made from solid mango wood, is a masterclass in geometric contrast and organic texture.

Its design strikes a sophisticated balance between a soft, circular tabletop and a sharp, square pedestal base, making it a versatile centerpiece for modern, bohemian, or mid-century interiors.

The standout feature is the fluted detailing on the base.

Each side of the square pedestal is adorned with vertical, parallel grooves that create a rhythmic play of light and shadow, adding architectural depth to your living space.

The solid wood construction provides a sturdy, weighted foundation, supporting everything from heavy coffee table books to decorative lamps.

This table isn't just furniture; it's a sculptural accent that brings tactile warmth and high-end design to any corner of the home.

Designed for versatility, this table is the perfect companion for your favorite armchair, a sophisticated bedside, or a striking accent in a curated gallery corner.

Carved entirely from Mango Wood, each table can complement various interior styles, from traditional to contemporary.
