

Relieves + Comforts Itchy Skin

Anti Itch Care

Medical Skin Care

Product description

A medical cream that has an immediate cooling effect on the skin and reduces and relieves itching. The cream provides optimal and long-lasting hydration, relieves itching, and cools and soothes the skin immediately. Suitable for all skin types and skin conditions that cause itching.

Indications/fields of application

- Relieves itching
- Reduces the tendency to scratch
- Cools the skin immediately
- Supports red, itchy skin
- Supports the treatment of irritated skin when relief from itching is desired
- Supports the treatment of irritated skin when a cooling effect is desired

Active ingredients

Aloe Vera Gel : Intensive and long-lasting hydration
iCOOL ML : Relieves itching and cools the skin (non-allergenic alternative to Menthol)

Properties

ALHYDRAN Anti Itch Care, especially developed for relief from itching. We used the powerful and scientifically proven formula of ALHYDRAN Medical Care for the Skin as the basis. We combined the unique characteristics of Aloe Vera Gel with other high quality, active ingredients.

ALHYDRAN Anti Itch Care is enriched with iCOOL ML (Menthyl Lactate), amongst others. iCOOL ML is hypoallergenic and the most skin-friendly solution for relief from itching. iCOOL ML has a strong cooling and anti-itching effect, but without the allergenic characteristics of Menthol. The combination of ingredients soothe sensitive, itchy skin immediately.
