- WebSockets
- Claude
- Replit
- Lovable
- Bolt
- Cursor

Results-driven Web Developer with 2+ years of experience in full-stack development, specializing in Next.js, NestJS, TypeScript, and modern SaaS application architecture. Proven track record of delivering 5+ web and mobile applications, implementing secure multi-tenant systems, AI-powered automation workflows, and role-based access controls that enhanced platform security and scalability. Brings strong expertise in frontend and backend development, real-time systems, cloud integrations, and performance optimization, helping organizations build innovative, high-performing digital solutions that drive efficiency and business growth.

WORK EXPERIENCE

FULL STACK DEVELOPER INTERN

Symph Inc. | January 2026 – May 2026 (5 Months)

- Developed production features for SaaS platforms using Next.js, NestJS, and Supabase, implemented role-based access control and security policies, built offline-first PWA functionality with real-time synchronization, and contributed to AI-powered document management and health record applications.

FREELANCE FULL-STACK DEVELOPER

Remote | November 2023 – Present

- Delivered web and mobile applications using React, React Native, Express.js, and Firebase, developed reusable component architectures, integrated backend services, and optimized application performance and reliability across client projects.
