Why I Fit Your Network

Your clients are high-acuity, high-expectation, and at times high-conflict. Finding an outpatient psychologist who can hold that complexity — clinically and forensically — is difficult. I can.

- Doctoral-level clinical expertise (Ph.D., Harvard Faculty 30+ years) — Highly experienced / talented therapist for adult, couples, family issues
- 25 years as Custody Evaluator / Court Psychologist in busy Family Court Clinic — fluent in divorce / family court issues
- PSYPACT authorized — telehealth across 43 states, no geography barrier for placed clients
- Responsive to care teams — I understand your model and welcome coordination where needed

What Sets Me Apart

Most outpatient clinicians are not equipped for the level of complexity your clients bring. I am.

- Dual J.D./Ph.D. credentials — the rare psychologist in most referral networks who is also a licensed attorney
- Comfortable with multi-disciplinary care teams
- Experienced with high-net-worth, high-expectations clientele — discretion and professionalism of a private pay practice
- Telehealth-based — accessible in 43 PSYPACT states plus Massachusetts. Clients can begin within days of placement.

Clinical Strengths

- Experienced with professional, executive, HNWI population
- High-conflict family systems and divorce adjustment
- Anxiety, depression, and mood dysregulation
- Life transition and acute adjustment challenges
- Trauma and stress-related conditions
- Family systems under legal or financial stress

Referral Logistics

- Initial consultation typically within 1–2 business days
- Telehealth via secure, HIPAA-compliant platform
- Flexible scheduling including evenings
- Superbills provided on request
- Coordination calls with care management team welcome

Ideal Referral Scenarios

- Client returning from residential or intensive outpatient needing a skilled outpatient anchor
- Family in legal conflict requiring a psychologist who speaks both clinical and legal
- High-functioning adult whose anxiety, depression, or relational crisis is untreated or undertreated
- Executive or professional requiring discretion, flexibility, and clinical depth
