Cuisivin®

Cuisivin has undergone an extraordinary evolution over time - beginning with a modest selection of products just over two decades ago as B & M Marketing (Canada) Inc., to a dynamic company distributing international brands as Cuisivin. The change of our operating name in 2014 to Cuisivin was completed to reflect our mission... to offer products that enhance your experience with fine cuisine and wine!

Cuisivin grew with a multi-brand strategy to offer something for every type of customer and lifestyle, leading to its latest move to offer in-house branding and customization capability on our full array of product lines. This expansion was done to better serve our customers and be a complete one-stop solution!

Our continued growth and dedicated service has also been thanks to our committed team of creative, passionate go-getters with the same can-do spirit that started it all.

Our unique and innovative product mix from around the world give you, our valued customer, a variety of options for promotional programs, corporate gifts, premium incentive programs, wedding registries and events.

We welcome you to browse our collection and thank you for your continued support.

**INVERSION
 AERATING**
Decanter

This unique decanter allows you to aerate, serve and even re-bottle unfinished wine. The Inversion Aerating Decanter is designed with an ingenious stopper-top, which allows the whole decanter to invert and seal to the mouth of the wine bottle. Attach the wine bottle, invert the decanter, and then watch and listen to the wine aerating into the decanter – ready to serve & enjoy! To store any remaining wine, simply reverse the process and it's back in the bottle!

SENSISPLUS

Discover the enhanced aromas offered by Eisch Sensis Plus Glasses... nothing else compares!

Wine poured in Sensis Plus Glasses becomes more harmonious and complex, with better balance and greater elegance. Through a completely natural process, the original character and structure of the wine is preserved, while its aromas and flavors become more expressive and generous. Sensis plus glasses also improve the enjoyment of spirits, fruit juices, sparkling water and other beverages. Experience Sensis Plus and discover the wine's true flavor.

Les verres Sensis Plus rehaussent l'harmonie et la complexité du vin, lui apportent un meilleur équilibre et lui donnent une grande élégance. Grâce à un processus entièrement naturel, le vin conserve son caractère original et sa structure, alors que ses arômes et son goût deviennent plus expressifs et généreux. Les verres Sensis plus rehaussent également les spiritueux, les jus de fruits, l'eau gazeuse et les autres boissons. Les verres Sensis plus combinent l'expérience et la richesse des idées de Eisch avec une interprétation caractéristique des plus grands plaisirs du vin. Essayez Sensis Plus et goûtez la saveur véritable du vin.

Connoisseurs use a few drops of water to cut their whiskey and to open the natural aromas and bring forth hidden flavours. With the Eisch Whiskey Pipette you can dilute your whiskey drop by drop, achieving the optimum blend for your taste. It is best to use only spring water or still mineral water with a low mineral content. An impressive accessory that every whiskey drinker will appreciate!

Eisch Decanters featuring the exclusive **NO DRIP EFFECT®** for stain-free pouring!

The NO DRIP EFFECT® helps to avoid undesirable stains caused by drips rolling down the outside of the decanter after pouring. These drips can leave ugly stains on your tablecloth. The NO DRIP EFFECT® treatment actually beads the last droplets on the rim allowing them to slide back inside the carafe – thus protecting your decanter and tablecloth from stains!

The exclusive 10 CARAT series from Eisch is a dazzling collection. Each product is individually handcrafted, and features dozens of shining crystals encased within the actual stem and handle. The stylish handle, or tail of the decanter is filled with brilliantly sparkling crystal "diamonds". As with all Eisch decanters, it features their exclusive No Drop Effect© which inhibits wine droplets from beading down the outside of the carafe.

Caffe Collection

CAFFE COLLECTION

CAFFE COLLECTION

The Cuisivin Caffe Collection is designed to enable customers to fully enjoy an authentic premium coffee experience. The specially designed glasses feature a perfectly curved base that promotes continuous flow of coffee when poured. This creates a good crema and enables the coffee to reach its full aroma and flavor. The glasses are also extra thick, with an inner wall which helps to maintain the temperature and stay fresh longer.

All our Caffe glass cups feature an open window Gift Box!

Natural Agate Coasters

Natural variation in colour, size and rings

Individual works of art, these pieces lend an air of sophistication to any room. Protective pads are affixed to the bottom. Natural size variance: 3.5" - 4.5" wide.

The **Bel-Air Marble collection** features beautiful dark grey and black marbled accessories to accentuate any décor. The cheese board makes a beautiful presentation for artisan cheeses and/or charcuterie. The one-piece design includes a handle for hanging.

FRESHMILL

HERBZ

Freshmill Herbs is a revolutionary culinary herb mill. It's available in three colors; Yellow, Light Green, and Dark Green.

- Fill it with whole, fresh herbs and store it in the freezer for weeks and months!
- Use Freshmill like you would a peppermill: hold it over your dish and twist a few times to sprinkle finely chopped herbs onto your food
- Freshmill freezes the herbs whole, avoiding discoloration and damage from storing chopped herbs
- Eliminates wastage due to faded leaves & spoilage, while preserving fresh flavor

Freshmill Herbz is packaged in a gift box!
