TERRA BY MATTEOBRIONI

Terravista

Terravista is a fine clay plaster that is made of clays from different Italian regions. The natural colors are a reference to these regions. Terravista can be applied as a smooth, textured or weathered finish. With the right addition of terra plus polymers Terravista becomes more damp resistance. Available in: Smooth, structured and wabi.

Appearance: Mat
 Material: Clay
 Thickness: 1-1,5 mm
 Usage: Only inside
 Wet area: No

Multiterra

Multiterra is a coarse clay plaster that is made of clays from different Italian regions. The natural colors are a reference to these regions. Multiterra can be applied as a smooth, textured or weathered finish. With the right addition of terra plus polymers Multiterra becomes more damp resistance. Available in: Smooth, structured and wabi.

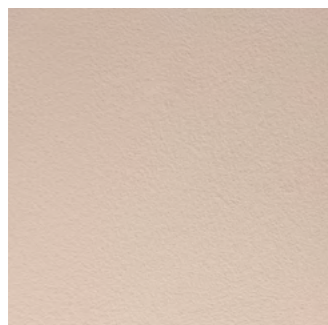

Appearance: Mat
 Material: Clay
 Thickness: 1-2 mm
 Usage: Only inside
 Wet area: No

Terracalix

The clay-based finishing plaster TerraCalix, inspired by Moroccan tadelakt, is more resistant than other clay finishes for the presence of lime in its composition and it's ideal to create a non-homogeneous natural color effect. Available in: Smooth, structured and waxed.

Appearance: Mat
 Material: Clay
 Thickness: 1 mm
 Usage: Only inside
 Wet area: No

Terrasilk

The natural clay-based paint TerraSilk can emulate a trowel finish at a much lower cost especially in the Structured version. Very useful in case of time constraints: for example stands, events and the like. Available in: Smooth and structured.

Appearance: Mat
 Material: Clay
 Thickness: 1 mm
 Usage: Only inside
 Wet area: No
