### Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

It's so good to be with you today. There's so much that we want to get into. The name of this series is *"Remembering Our Future,"* and in this series, we're really going to give you practical information that will help you find a way to understand your condition and do something about it.

All of us have emotional responses to our environment. It makes us totally forget who we are and where we originate from. During these sessions, we want to give you some very helpful insights into conditions, and the results of these conditions.

Before we begin, I want us just to breathe in His mercy, and His grace because the depth of what God wants to show us is relevant when we're in peace. Father, we just breathe in Your mercy and Your grace. We breathe in that presence that is who You are. There's no one like you, Father. We have to experience you in a new dimension every morning because that's how you designed us. You want to give us something fresh and new each day. Lord, we ask you to train us not to repeat our past, and to break those habits that have kept us so locked in to the wrong emotions. So, let's just breathe in that mercy and that grace. As you breathe, you'll feel His peace, you'll feel His grace, you'll feel His mercy. Bring your thoughts into captivity right now. Just be focused on the present. See His mercy in your life. See His goodness in your life. Experience that peace right now; that experience will give you a will give you a greater emotion, and that emotion will give you a greater behavior. We thank you, Lord.

Take your Bibles and turn to:

#### John 17:24

**"Father, I desire that they also whom You gave Me may be with Me where I am, that they may behold My glory which you have given Me; for You loved Me before the foundation of the world."**

We're studying our origin. We want to know what that means before the foundation of the world. It's mentioned three times in the scripture, and each time there's a different aspect of it revealed. World is not the same as the Earth. World is what we create from our beliefs, and it's important for you to understand this. As we go through these series, we're going to emphasize how you create your world, and see why it is so contradictory to the world you were created in. That is the place where you have that rest and that peace with the Father.

#### 1 Peter 1:20

**"He indeed was foreordained before the foundation of the world, but was manifest in these last times for you."**

As we know, last times, last days, is a big buzzword in the Christian circles. When Peter was writing this, it was about to be the last times of Jerusalem, and all of this was coming to a culmination or a fulfillment of everything written in the scriptures.

## Origin & Consciousness

### Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

Now, our origin begins where Paul talks about in Ephesians 1.

**And we'll read Ephesians 1:3-4**

**“Blessed be the God and Father of our Lord Jesus Christ, who has blessed us with every spiritual blessing in the heavenly places in Christ, just as He chose us in Him before the foundation of the world, that we should be holy and without blame before Him in love.”**

We were in him before the foundation of the world before there was a consciousness in the planet. We've spoken about consciousness over the past several weeks and months. Consciousness is the result of what we think about. It forms a structure inside of our mental understandings and beliefs. We have an unconscious state, and we have a conscious state; then there's a collective consciousness that's in the world. We can see how the collective consciousness is driving the attitudes and behaviors of the planet. In this particular time in history, we're seeing fear being released everywhere; that's a narrative and a consciousness that's being broadcast planetarily. When you are with Him in heavenly places, in your origin position, you don't experience this consciousness in this world. That requires retraining where our attention is. It requires understanding who you really are. People think that they're flesh and blood, and they spend 70,000 to 90,000 thoughts a day focused on that belief. That's how many thoughts you generate every day, and each day, 90% of those thoughts you had yesterday, you have them again. So, if you're focused on the environment, on time, on your surroundings, and other people, that's where your thoughts are. We're going to get in to how your body becomes your unconscious mind.

**First, I want to read a letter that I wrote to all of you:**

**Recently, during my times of the Lord, He took me above and outside this planet. I knew it was His kingdom, but the room was like a movie theater. Given that we understand there is nothing new under the sun, I saw what looked like films of various events on this planet from as far back as the Kingdom of Nebuchadnezzar. The films were separated into sections of times, up to current conditions, and even beyond. Each time frame in history had a specific rhythm or wave frequency that looked like a monitor used by hospitals to measure vital signs. When the Lord took me outside of time and space, I realized that I was entering back into my original condition. From that position, I could see this planet as a huge vitals monitor, and that vitals monitor was showing the signs that looked like the consciousness of the planet. They had an amplitude and vibrational frequency that looked like waves, and those waves had a steady rhythm and beat across the whole universe. This actually looked like one. There was no separation. Major events such as wars, famines, earthquakes, tsunamis, and human suffering disrupted the waveforms. In other words, the movie would be playing very fast, and have a certain frequency or waveform, until a major event interrupted the movement, much the way a storm affects an ocean. Then, the storm would pass and the waveform would reappear like a heartbeat on the monitor, which I understood to be the collective consciousness on the planet.**

## Origin & Consciousness

Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

Regardless of what the event was, whether it was famine, plagues, or world wars, it acted like a storm over the ocean, which totally created disruption in the frequency and the vibration of the people. It showed that these circumstances, outside the planet or in the planet, would affect the way people were thinking that were living during that age. After a period of time, a new event would occur that would again alter the waveform and change the collective consciousness of the people. Something that looked like a plague or a disease altered the consciousness of the people.

The most important revelation for me was the overwhelming attraction men of every age displayed for power and riches. The men would kill, steal, and lie to control the wealth of the people at that time, and that would eventually lead to another event on the planet. So, what I began to understand was that these events were somehow triggered by the consciousness of the people before them. Their desire for the riches, and to control the people created the disturbances in the planet. That was both the drama and the plot in every movie, which eventually led to the change in the collective consciousness and frequencies of the planet.

So, you see, the heart of man never changed after Adam, and the heart of man was desperately wicked, as it says in the scripture. Regardless of the consciousness that came after the event, the heart of man never changed. Just a few people, like the remnant, would come out of that next generation, but the overall consciousness of the people was to get the wealth of the planet, and do whatever they could to try to get more money, or more fame, or more wealth. That was ultimately why Solomon said, "There's nothing new under the sun," because until the heart of man changes, the desires are still at the root of going after wealth on this planet.

So, the Lord was showing me this, and I was wondering, and thinking about what's going on now. The events that are happening planetarily right now, are producing fear at such an unbelievable level in the hearts of people. It is causing the thinking, and the emotions of the people to become lower and lower. This thing that's happening is like a rape in the consciousness of the planet, and this rape is going to produce a bastard child in the next eight months. It's not an actual person, but a consciousness, that's going to be reproduced as a result of what has happened during this time. Just like the vital signs monitor that you saw earlier, the Lord showed me that the next level of frequency and vibration eight months from now, was going to be like a stillborn child. Stillborn means they had no life. This will be a birth of life, but the vital signs, which is the frequency of their minds, and thoughts, and behaviors, will be the lowest since the 1917 plague. This is because the fear in people's emotional stress level will create such hormones of distress, and anguish, that the consciousness of the planet will have been reduced to a level where anything can frighten the people.

It concerned me when I saw it, but the Lord says, "Don't be concerned. The collective consciousness of the planet is going back to sleep, which is setting up the greatest awakening since 100 years ago. I'm going to awaken those who have been seeking me with greater revelations, greater signs and wonders."

A powerful visitation, and manifestation in the planet is coming only for those who know Him. The majority of the people are being put to sleep from their fear. This is what's called emergence. Emergence is what the cells do inside our bodies. If you have a muscle that you're picking up something with or you're straining, the cells uniformly come together to help that muscle do what work it needs to do. In nature, we see it with birds, and with fish in the oceans. They all move with one consciousness; without any kind of leader. It's an unconscious knowing that they all have at one time.

## Origin & Consciousness

### Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

So, you see many people, when they're raised, they're afraid to be a leader. The leaders, historically, have all been killed. So, people are always saying, "Let someone else do it. I don't want to stand up and do it." But this emergence shows you there's not necessarily a leadership, there's a consciousness, and this consciousness comes as a result of knowing.

You see, the problem that most people have is they have a concept, then they do something to try to work out the concept, but they never get to the last stage of that process, which is becoming. When you become what you know, the Holy spirit can raise you up to another level, and that's the consciousness that's coming in the next eight months that you need to be prepared for. Because he's been preparing many because it has been preparing a lot of people for what is about to happen. It's got nothing to do with the end times or any of that nonsense. It comes because this is a time and a season in the planet, where those who know the Lord will shine like the stars. This is the position that the Lord is putting you in right now. So, if it feels uncomfortable, the things you're going through, it's necessary. Do not fight it! He's preparing you so that you can receive revelation, and it needs a foundation to land on. And, that revelation is going to be very weighty. It's going to cause you to be out of sorts in a way that you're not familiar with, because what he has to do for the next generation is going to require sacrifice inside of you. It's going to shake you from your familiarity and predictability. He's going to take you into those heavenly places. He's going to show you things that you can't see as long as you're focused on the material. So, as you are understanding what the Lord is doing now, you have a little glimpse of it. You have to become familiar with your original design. You are spirit. You are spirit. This is why so many people have such a hard time trying to fit into the things of this world. You cannot be part of this world system. When the Lord showed me the vision of how men were running after the treasures of this world, it was revolting to me. I understand what Jesus said in Luke 16. It was visible to me.

#### Luke 16:15

**And he said to them, "You are those who justify yourselves before men, but God knows your hearts. For what is highly esteemed among men is an abomination in the sight of God."**

I'm telling you; it is obvious in the heavenly places. This world system has nothing that is appealing when you're in the heavenly places. The longer you spend in that position, it'll be much easier for you to understand what Jesus says in Matthew.

#### Matthew 6:33

**"But seek first the Kingdom of God and His righteousness, and all these things shall be added to you."**

#### Matthew 6:26-33

**"Look at the birds of the air, for they neither sow nor reap nor gather into barns; yet your heavenly Father feeds them. Are you not of more value than they? So, why do you worry about clothing? Consider the lilies of the field, how they grow: they neither toil nor spin. For after all the things the Gentiles seek. For your heavenly Father knows that you need all these things. But seek first the Kingdom of God."**

**Matthew 6:21**

**“Where your treasure is, there your heart will be also.”**

This is what I could see from this place in the heavens. I call it the heavenlies, but it's the Kingdom of God that surrounds this Earth. We know the Kingdom of God is the invisible world that envelops this planet. We made this picture before. Let me show you again. This is the Kingdom of God. This is the Earth. It's not flat. The Kingdom of God surrounds this planet, this material realm. Here are the heavens above the Earth, and in Genesis, we see how all of this is made. The Lord was showing me that the light here in the Kingdom of God is made up of His water, and is made up of His spirit. So, when Jesus is telling Nicodemus, “You must be born of the water and the Spirit,” He was saying, “This is the realm that you must enter in order to be baptized.” The light we see here is not the light that is here. There are no shadows here. This planet and the people here are ruled by shadows, and it's the shadows that control most of the emotions of the people.

Let's look at a scripture in Psalms. I wrote two different translations, so I'm going to read it from my screen.

**Psalms 36:9**

**“For with You is the fountain of life; In Your light, do we see light.”**

**“You are the source of all life, and because of your light, we see the light.”**

**Job 33:30**

**To bring back his soul from the pit, that he may be enlightened with the light of life.**

And then Jesus says in **John 8:12**

**Then Jesus spoke to them again saying, “I am the light of the world. He who follows me shall not walk in darkness, but have the light of life.”**

The light in this realm is life. The light in this realm has no life. You are born here to die, physically, but not spiritually. Spiritually, you're designed to return back to the origin. But the people who try to manifest and live their life in this light, are the ones that produce this collective consciousness in the Earth. Are you following me? This collective consciousness is created by the fear in the shadows. James says, **“The father of lights that has no shadow in turning.”** So, there is no shadows here, and you see life here. And, what's about to take place in the next few months, is a break in this realm, so the light of life can penetrate this earth again, and reawaken those who are asleep, who have been called for the next generation.

## Origin & Consciousness

### Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

There are many children being born today that see their parents in fear; they see their parents with all kinds of physical ailments and conditions, and that is transformed into their consciousness. This light will interrupt that conscious transfer from the parents of the past generations, because everything in this realm is designed to operate in faith. As we said before, faith is the power of the heart that's connected with the thoughts. So, when the heart of man, and the thoughts of man become one, you create in the physical realm.

You were born to be a creator. We are creators; we are sons of God. The reason you're not creating what you want in the earth is because your heart is divided from your thoughts. Those whose hearts are connected to the thoughts of Christ, don't reproduce those low-level emotions and thoughts. We need to understand that we are creators and what we think manifests. I want to read a verse from The Book of Thomas.

#### The Gospel of Thomas, saying 50

**Jesus said, "If they say to you, 'Where have you come from?', say to them, 'We have come from the Light, from the place where the Light came into being by itself, established itself, and appeared in their image.'"**

We talked about images in the past. So, the image you have, that's the light you create in yourself.

**"If they say to you, 'Is it you?' say, 'We are its children, and we are the chosen of the living Father.' 'What is the evidence of your Father in you?', say to them, 'It is motion and rest.'"**

The action you have to work out what you know about Christ, will produce rest if it's from the true light. If it's from the light that's from the shadows of this earth, you won't have rest, and that's the problem with the church. You see, the church has believed wrong interpretations of the scripture, and they don't have any rest; that rest is the ultimate proof that the light you're receiving is true. We're designed to move, but every movement must come to rest. When you enter into his rest, you're able to alleviate yourself or extricate yourself from this system. That's what the true light does. That's what Thomas was talking about.

#### The Gospel of Thomas, saying 83

**Jesus said, "Images are visible to people, but the light within them is hidden in the image of the Father's light. He will be disclosed, but his image is hidden by his light."**

His image is light. His image is light. Your image is light, and as long as you're trying to protect an image, you're living in the shadows. That's where the miscommunication, that's where the chaos, that's where the stress is in your life. Thomas says (this is what he quoted from Jesus):

## Origin & Consciousness

Remembering Our Future Series – Session 1 | English Transcript – Emerson Ferrell

The Gospel of Thomas, saying 91

**“You examine the face of heaven and earth, but you have not come to know the One who is in your presence, and you do not know how to examine the present moment.”**

Wow! He is in your presence, and if you can be still and at rest, you will become one with Him, and you will know Him. Listen, I'm telling you, it is so real right now. There is such an opportunity right now to know Him like never before, but you have to be one with the true life of Christ, and you must be born again. You have to be baptized in His spirit and water. When we look in the Genesis creation, we see there was light, there was spirit, and then there was water. Then, all creation takes place after that. You don't like what you're seeing in the physical? Then, enter into the kingdom and change your perception. Because, if your outer world is greater than your inner world, you will be moved by your environment, not by your relationship. I'm going to say that again. If you say, “I have this feeling, or I'm angry, or I feel jealousy, or I'm abandoned,” then that means you are reacting to something in your environment. There are good emotions: Gratitude, thanksgiving. All of those are great emotions; all of those are high-level emotions. That's what Paul says, **“Think on these things. What's pure and lovely and honest, think on these things.”** There's a new generation rising up that want to think good things; they want to release love in the atmosphere, and want to be thankful for everything they have. They want to be greater than their environment. When your thoughts are greater than what you experience in your environment, you'll stop paying attention to the environment. And, that's the new day. That's the new day, because that's where this is. That's where the light is.

I hope this is resonating with you. I want you really, really to study what we've done in the past, Ana's programs, my programs. Because, if you go into the rest that you're designed to go into, you're going to hear things from what we said, and you're going to read things in the scriptures that you never heard before, because you're open to something new in your life.

We love you, and we'll see you next time.
