If you want to just want to learn 1 to 10, don't worry – I break these down step-by-step so you're not overloaded.

You'll learn how to count, read and say the numbers out loud in the following steps.

- **Part 1: One to Ten**
- **Part 2: Eleven to Nineteen**
- **Part 3: 20 to 29. These will apply to all numbers 20 and above.**
- **Part 4: 20, 30, 40... to 100**
- **And the end, you'll be able to count from 1 to 100 in Hebrew**

Part 1 – How to count 1 – 10 in Hebrew

Below is a picture for reference, and underneath is the chart for all Hebrew numbers from one to ten.

Don't worry too much about the pronunciation. The romanization versions will give you a good idea of how to say them.

1	אחד	echad
2	שתיים	shtaim
3	שלוש	shalosh
4	ארבע	arba
5	חמש	hamesh
6	שש	shesh
7	שבע	sheva
8	שמונה	shmone
9	תשע	tesha
10	עשר	eser

Just read the romanizations out-loud and there you have it, your Hebrew numbers from one to ten. It's that easy.

Number	Romanization (Pronunciation)
1	Ehad
2	Shtaim
3	Shalosh

4	Arba
5	Hamesh
6	Shesh
7	Sheva
8	Shmone
9	Tesha
10	Eser

That was simple, huh? Now... onto bigger numbers.

Part 2. Hebrew Numbers 11 to 20.

Here's a **quick and dirty rule** to say most of the numbers from 11 to 20. There might be small spelling/pronunciation changes, but don't worry about it. You'll get them with enough practice.

For numbers 11 to 19, the "quick & dirty" rule is...

Number from 1 to 9 + **Esre**

So, if you take a number from the 1-10 chart above, you can now create numbers 11-19. For example, 15 is Hamesh-esre. Remember, Hamesh is 5, as you learned above, and adding **esre** makes it 15. But, this is quick and dirty, because as mentioned, there will be small spelling changes.

So here's the complete list of Hebrew numbers 11 to 20.

Read out the romanizations to get an idea of the pronunciation.

Number	Romanization (Pronunciation)
11	Ehad-esre
12	Shteim-esre
13	Shlosh-esre
14	Arba-esre
15	Hamesh-esre
16	Shesh-esre
17	Shva-esre
18	Shmona-esre
19	Tsha-esre
20	Eshrim

Part 3. Hebrew Numbers 30 to 100

Okay, now you know 1 to 20. Let's do the rest of the 10s. You'll need to memorize these.

This is an important step.

Once you know these, you'll be easily able to count from 20 to 99. Trust, me. It'll be super easy.

Number	Romanization (Pronunciation)
30	Shloshim
40	Arbaim
50	Hamishim
60	Shishim
70	Shiv'im
80	Shmonim
90	Tish'im
100	Mea

Part 4 Final Step. How to Count the In-Betweeners: 21 to 99.

You're almost ready to count from 1 to 100 in Hebrew.

You already know 20 and 100. And you know the **tens** (30, 40, 50... 90). Now it's time for all the numbers in between. Numbers like 21, 35, 49, 88, 96 and so on.

This is super easy.

All you need is this simple rule.

Take the Tens (from Part 3) + Add **ve** + Add 1-9 (from Part 1)

1. You learned the tens in part 3. Take one like 30 (Shloshim),
2. Add ve (it means "and")
3. And then, take a number from 1-9 that you learned in part 1. For example, 9 (Tesda)

So for example and extra practice...

- 39 is Shloshim ve Tesda.
- 55 is Hamishim ve Hamesh.
- 99 is Tish'im ve Tesda.
- 61 is Shishim ve Shesh.

See? All you're doing is combining part 3, **ve** and part 1.

Now, you can count from 1 to 100 in Hebrew. Easy.

This should've taken you 5 minutes or less to read. What's the best way to master these numbers? Print this page out, put in your notebook for reference. Then, practice as much as possible. Reading things online is one thing... putting them to use is how you'll master them.

Also, if you want to learn and speak Hebrew with lessons by real teachers...

...then I recommend HebrewPod101.com. It's a Hebrew learning website with audio/video lessons. You learn with 3-15 minute long lessons. They teach you real conversations and explain every word so that you're ready to speak at the end.
