

Seeing the Unseen

English Transcript – Emerson Ferrell

Greetings Beloved,

Today we want to do some studying to continue our journey into Christ. And I was reading in the book of Hebrews today.

In **Hebrews 2:8-9**, the writer says:

“You have put all things in subjection under His feet.”

“All things”, it says, and His feet we discover is talking about Jesus, the Son of God.

“For in that He put all in subjection under Him, He left nothing that is not put under Him. But now we do not yet see all things put under Him.

But we see Jesus, who was made a little lower than the angels, for the suffering of death crowned with glory and honor, that He, by the grace of God, might taste death for everyone.”

Now, I know that we've all read this scripture probably many times, but as we continue our development in the understanding and revelation of Christ, these Scriptures start taking on a lot more depth. They are for me, and I hope they're doing the same for you.

In this verse, we see that God “*put all things under His feet,*” and then it says later in the book of Hebrews that He's sitting at the right hand of God.

Hebrews 10:12

“But this Man, after He had offered one sacrifice for sins forever, sat down at the right hand of God,”

And it says in **Matthew 28:18**

And Jesus came and spoke to them, saying, “All authority has been given to Me in heaven and on earth.”

So if Jesus has everything under His feet while He was Son of God on the Earth, in the flesh, through His death and resurrection, then it's incumbent upon us to see what's under His feet, because the writer says, “*we don't yet see,*” but we have reached the place in our relationship with the resurrected Christ to start to understand that **we can see what's been put under His feet, but it requires our relationship with the Spirit.** And that's why I want to talk to you today a little bit about our relationship with the scientific word called “Quantum Physics”, because it really defines the difference between “spirit and flesh”, “energy and matter”.

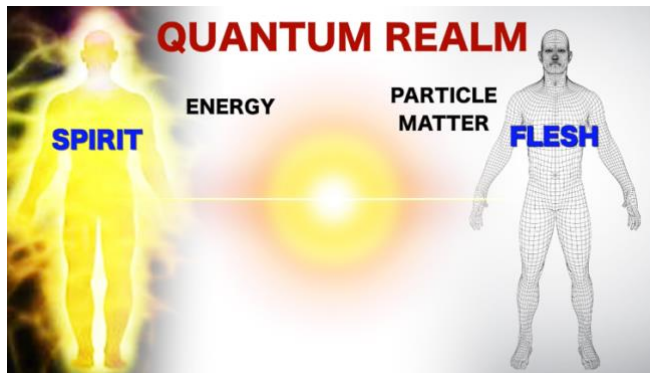

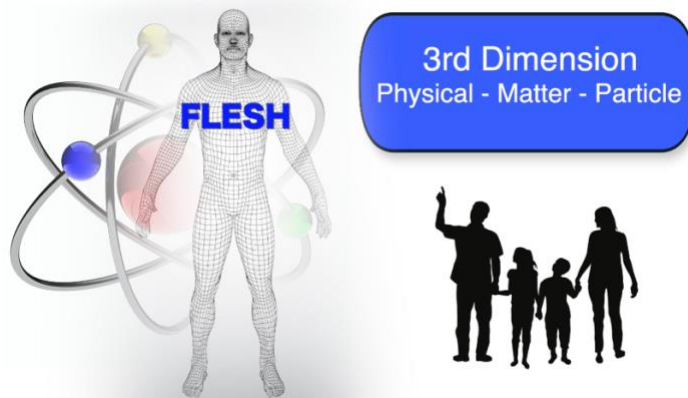

Seeing the Unseen

English Transcript – Emerson Ferrell

As we develop that correlation in our understanding, it's going to help us read these scriptures in a greater dimension, I believe. Let's just look at a diagram that I've put here that shows that the spirit is what is unseen, that's the things put under His feet.

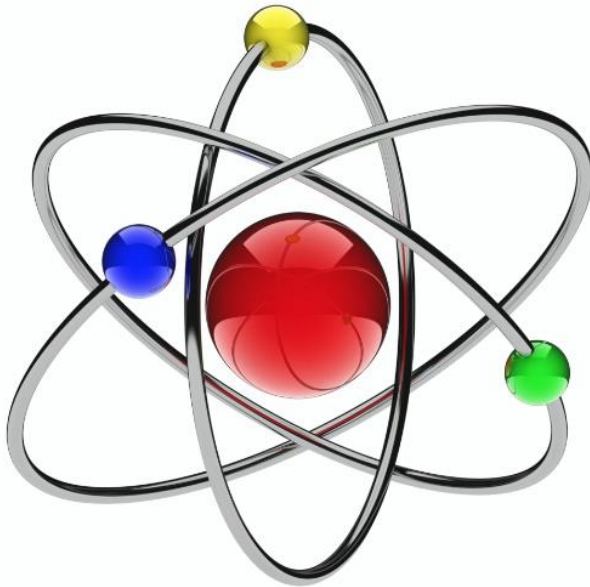

They're unseen because we have practiced our whole physical adult life since we were children paying attention to the particle, or the matter, or the flesh. In quantum physics, there is energy, which I call spirit, and then there's particle, and we focus on the particle.

Seeing the Unseen

English Transcript – Emerson Ferrell

If you get a picture **that the spirit does not live inside of us, but we live inside the spirit**, then it will help you understand your relationship with how you look, how you experience this dimension. The physical dimension, this three-dimensional plane that we physically navigate through in our bodies is that small, small percentage of the atom, which is the “foundation” or the “building block” for everything material. And we've talked about the composition of an atom before.

ATOM

0.0001%

Particle - Matter

99.999%

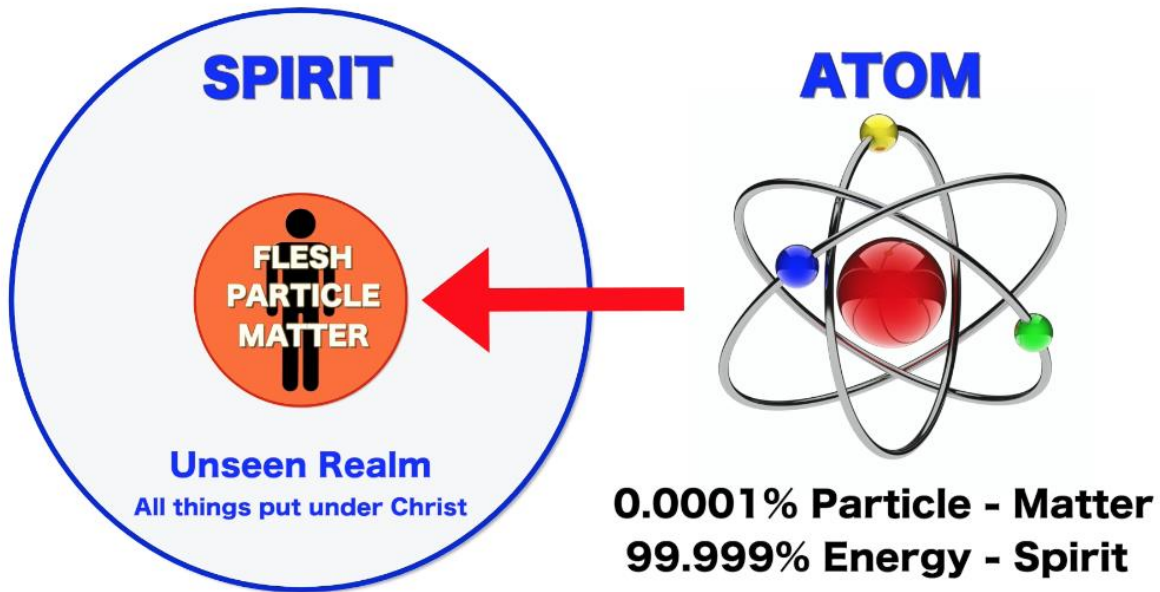

Energy - Spirit

I think it's kind of prophetic that God's first man was called Adam, because I believe he was the building block for all of civilization in the material world. Because of Adam's transgression, the fact that he put his attention and focus on what God said, “don't do”, is kind of the relationship we have developed as human beings. All you have to do is tell a child **NOT** to do something, and you can 99% guarantee that's the first thing he's going to be gravitating towards. Why is that? That's the characteristic, that's the makeup of this dimension, because “*we want what we can't have or what we believe we can't have*”.

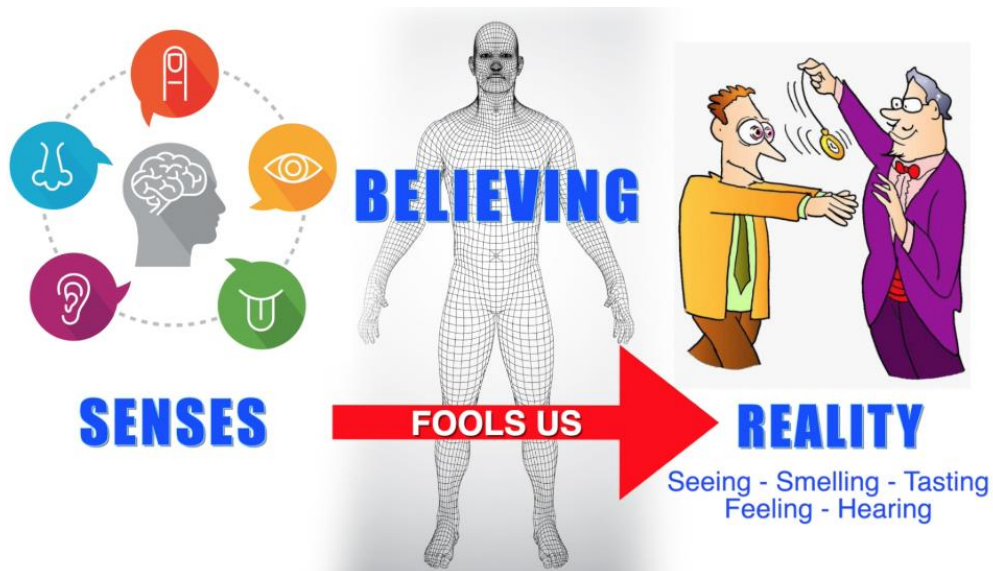

It's a hypnotic trance that we're born into in this dimension that we “*must have what we don't have*”, we must go after what we can't hold in our physical hands. And so, this whole mentality of “*waiting for something*” has come into our mentality and the way we pursue life from that mentality.

That's why it's so critical for us to understand that we are not flesh, but we are spirit, and there's not anything we're not part of. Think about it. If that small part of an atom is the only thing that's matter, that's the only thing that's physical, that means that small part has the composition of the invisible. That's where it comes from.

Seeing the Unseen
English Transcript – Emerson Ferrell

So, we're not separate from what we don't think we have. The only thing that creates that relationship with us of "not having" is because we believe that our senses "must" taste, smell, feel, experience that physical. And that's where the hypnotic trance has its greatest result in our life.

So, we start building relationships with things that we believe we don't have. And you see that in the way people interact with one another, interact with money, and interact with their victimization mentality.

Seeing the Unseen

English Transcript – Emerson Ferrell

And that is how our Christian life starts, because we come into a physical church, we come into a physical doctrine and system that is geared to minister to the physical and not to the spiritual. We're taught that the Bible is divided, that it has an Old Testament and a New Testament. We're taught that the words that Jesus spoke were the New Testament, when in reality, we understand that He joined, He completed everything that was written before Him. Jesus was the fulfillment of all the prophetic words in the Old Covenant, and "we" are the New Testament from this point on because of the resurrection of Christ.

So, when you start to use scriptures to validate your condition in the physical realm, you're missing the reality of that spiritual word. It's to draw you back to your origin, to draw you back to your spiritual nature. So, I want you to understand that the spiritual realm is this invisible dimension that you can't see. But in the Scripture, we say that *you can't see it, but all things are under His feet*. You don't have to wait for anything if it's already been done. Okay?

So, the bridge between the invisible and the physical is the **speed of light**, and that's what Einstein and his theory of relativity brought to the physical dimension. He was wired for light. He understood light and the speed of light and how matter and energy work together. And the currency of that matter and energy was the speed of light.

So, in the light that we live in, in this fourth day light (*because we know in Genesis that it was on the fourth day that God put the lights in the sky for this dimension*), everything operates in this dimension with shadows and lights, and the speed of light is what separates us from this invisible dimension.

Seeing the Unseen

English Transcript – Emerson Ferrell

There's a scripture that Thomas writes where he says:

Gospel of Thomas, verse 83

Jesus said, "The images are manifest to man, but the light in them remains concealed in the image of the light of the Father. He will become manifest, but His image will remain concealed by His light."

There are two types of light being discussed in this verse.

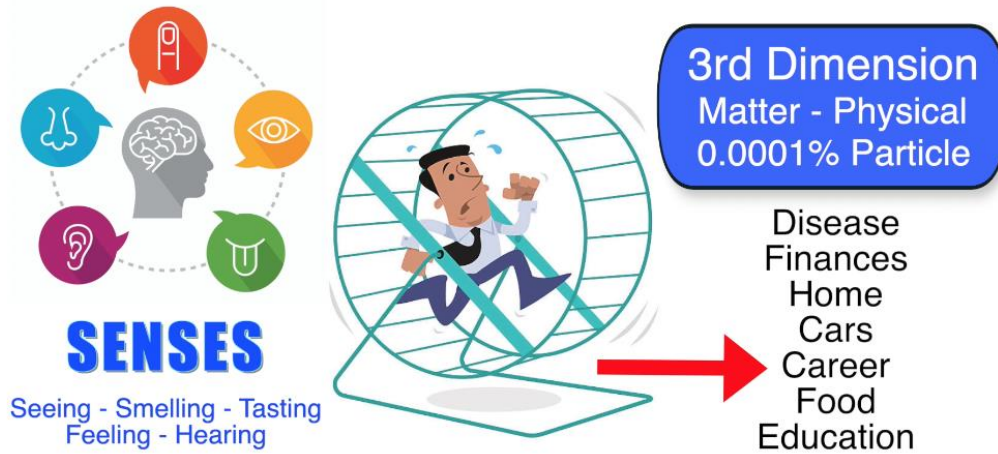

The first light is the one that's concealed in the light of the Father. That's the image. But it will become manifest, *(the light that is in you from this dimension - the spirit where you originate will become manifest)* the more the light of God is allowed to give you vision, to give you clarity, to let you see the invisible.

That's what that light in you is about so that you can see what you can't see in the natural. But the light of God will stay hidden in His light which shows you that His light is greater than all the light that we have up to this point been exposed to. So, the light that's in you comes from the spirit dimension, that is who you are. And as that light becomes greater, it makes what you are attracted to in the physical light less attractive.

The light that is in us is spirit, that's where we come from, that's the invisible realm that we can't see with our physical eyes. We've trained our physical senses to be attracted to the dimension of this realm, this three-dimensional realm, but the dimension where God is and where we come from is what's called "spirit" and it's what science calls "energy". Everything is either "energy" or "matter".

Seeing the Unseen
English Transcript – Emerson Ferrell

So, because we have focused so much on “matter”, we spend our “energy” (*which is spirit*) trying to get the physical. And then when we don’t have what we’re going after, we use this “energy”, and it detracts from our condition. In other words, our organs get sick. We have problems communicating with people because inside of us we try to change matter to matter.

Seeing the Unseen

English Transcript – Emerson Ferrell

We're taught from the beginning that you have to go to work, you have to make money, you have to be successful. And the way you're considered successful is if you have more matter. The more matter you have, the more you're considered successful. You always read about people that have the most money. You read about people that have the biggest yachts and have the most prestige, and usually they have material. What you don't read about is what it's done to those people. It costs them one way or another.

When you expend energy to get material, anything that you're trying to get in this material realm costs you and the energy that you come with, the spirit dimension, it takes from that. So, what happens? Most people come to church after they've expended so much of their energy -- they want to go find out why they're in the condition they're in. Their bodies are destroyed, their relationships are broken, and they're having all kinds of problems. Why? Because they were spending all of their energy in the material realm to get what they thought would make them happy, give them freedom, give them abundance, whatever they thought, that's what they traded their spiritual energy for. So, when they reached that place of just destruction, they start asking themselves bigger questions. And that's when people start going inside themselves and asking the bigger question: "*Who is God? Why am I here?*", all those things.

So, they end up in church, and church gives them doctrines or some kind of theology and tries to fix them with more material, instead of the spiritual dimension, which is where they're from. Instead of teaching them about their origin, they want to give them a reason to believe like they do. That is not what Jesus came to talk about. That's not what Jesus brought to this planet. He brought the transformation of His reality, His light, which is from the source, God the Father, and that light has nothing to do with the material in this realm.

We just read that in the **Gospel of Thomas, verse 83.**

The light from God is so bright that it conceals His image, but it will enlighten you to ask the right questions of the Spirit of God so He can direct you from your attention on the material to your attention on where He is on the inside.

And that's what happens to people. They read the scriptures and they say, "*Jesus says He's coming back.*" He did come back to reside on the inside of you. He's already done that. You don't have to wait on anything else.

The hypnotized state of our belief is that we have to wait on something physical to change us spiritually, which is absolutely backwards from the design of God. He put Himself inside of you.

In fact, if I was God and I wanted to hide, the first place I would go would be on the inside of human beings, because that's the last place they look. They're waiting on something outside, so why not hide on the inside of them and wait for them to find Him? And that's what He does.

Seeing the Unseen

English Transcript – Emerson Ferrell

So, when people reach their lowest level and they finally go inside, that's where they're going to find the Son of God, that's where they're going to find that light that they were originally from; and it will start to illuminate what they've already known.

You know what is right. You don't need outside influences to tell you what's right and wrong, you know, because the inside of you has come from that place.

If you want to change your condition, you have to change your focus, because we've been hypnotized to believe that your success is external. So, here's an example. **People focus on money when they don't have it to reaffirm their mentality of lack.** You see, if you feel like you're a victim and you don't have something, that's the thing you're going to focus on. Why? So, it reaffirms your condition physically that you are in lack, that you don't have abundance.

I remember hearing people make these proclamations of abundance. Christians would come to these church services, and they would talk about how they “want abundance, they want abundance”, and they would quote all these scriptures that talk about abundance. But emotionally, their body was telling them, “We are in lack, we don't have anything”. So, the thought would never reach their emotional condition because emotionally they were portraying lack.

That cannot change a person. Your thinking and your feeling must be one. So, in other words, your relationship with abundance means you cannot be addicted to the feelings of lack.

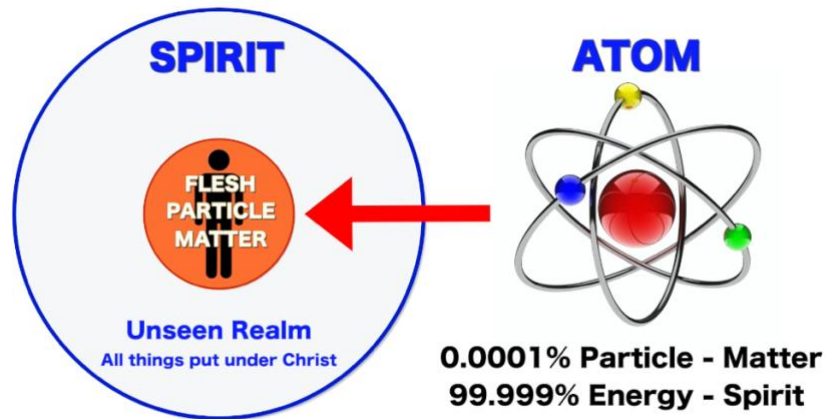

And that's the same and that's true for relationships, that's true for your experiences in life, whatever they are. You can't feel one thing and think another. **You have to generate abundance from the inside out, not from the outside in.** Therefore, when you are feeling abundant, then you're not going to be looking for it, are you? When you're feeling whole, you're not going to be looking for something else, are you?

When Jesus walked this earth, He was showing people what it was like to be whole, to walk “thinking and feeling” as one. So instead of thinking what you don't have, or focusing on what you don't have, start to generate the feelings of what it would be like if you had it; because in reality, you're not separate from what you want, because you come from the wholeness of everything that's inside of you.

Remember the picture of the atom? It's all spirit. And that small particle is a very small percentage of the whole, and the whole is complete. So instead of focusing on what you don't think you have, feel the feeling of what it's like when you have it. And that's in relationships, that's in your health, that's in your healing, that's in everything in your physical realm. Generate the feeling and you will have what you want.

Seeing the Unseen

English Transcript – Emerson Ferrell

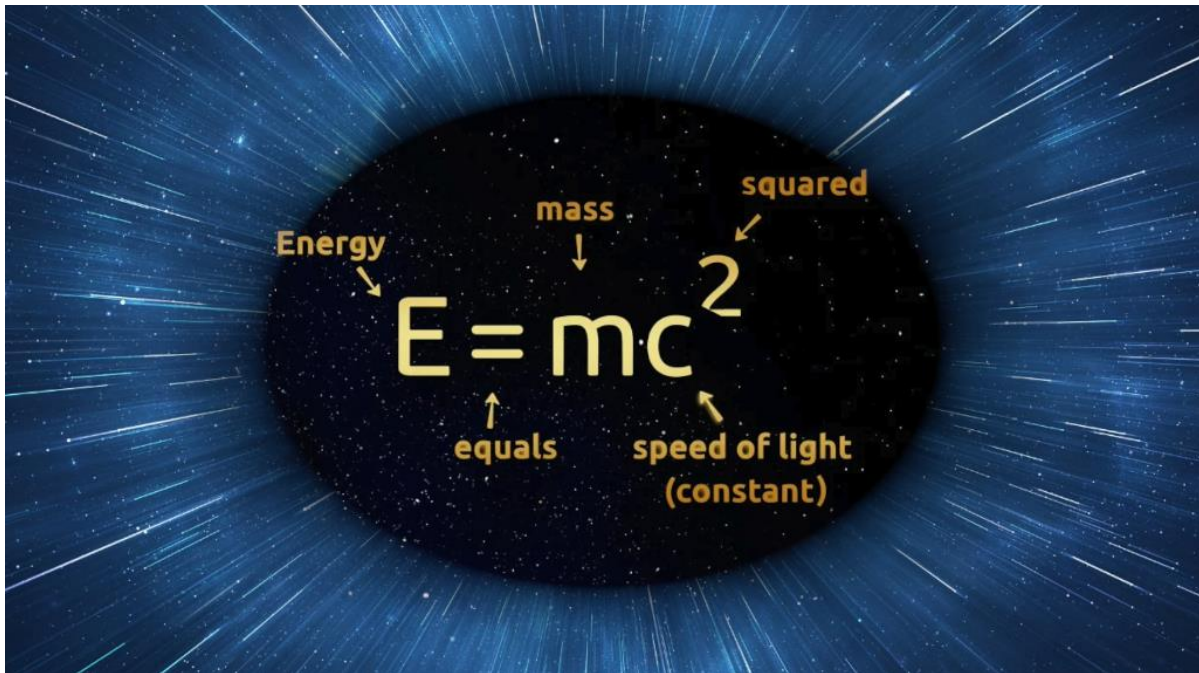

And that's why Jesus said, whatsoever you ask, believing, you shall receive. There was no time in that statement by Jesus, because what He was saying is:

"Whatever you want, you have it when you believe it."

So, there's no time in that.

And you see, that was the relationship in this **quantum realm**. The scientists of Einstein, whose focus was on the **speed of light**, *Time* was part of that equation because of the speed of light. It took time to go from one place to another. Just like it takes time for you to go to your job or to wherever you have to go. You have to move your body through time.

Seeing the Unseen

English Transcript – Emerson Ferrell

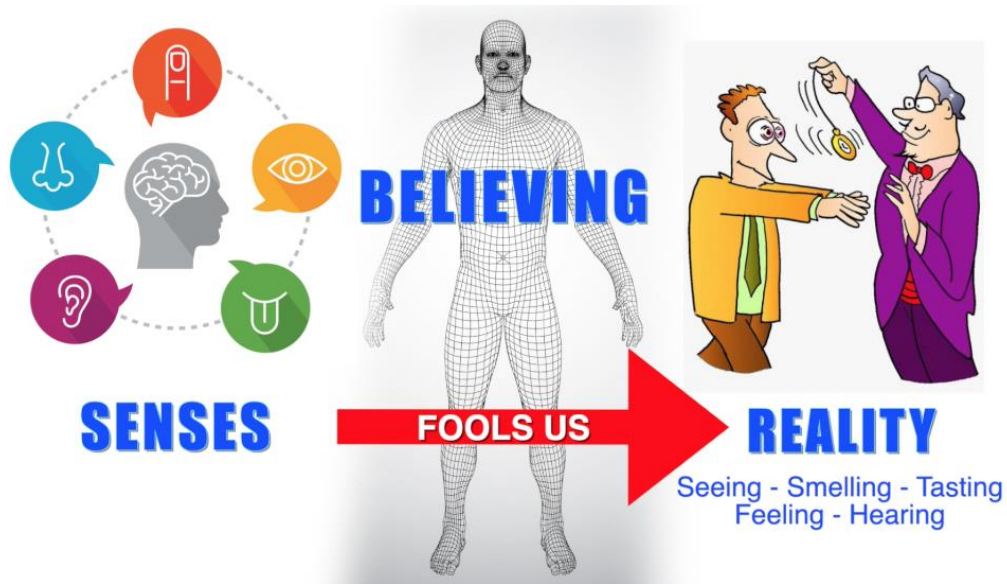

In the quantum realm or the spiritual realm, it's beyond the speed of light. They have done experiments where they took two photons and sent them to the opposite part of the universe. And whatever they did to one immediately, the same thing happened to the other photon. That's outside of time because it would take time to do something to one to affect the other. But see, that's beyond the light of this dimension.

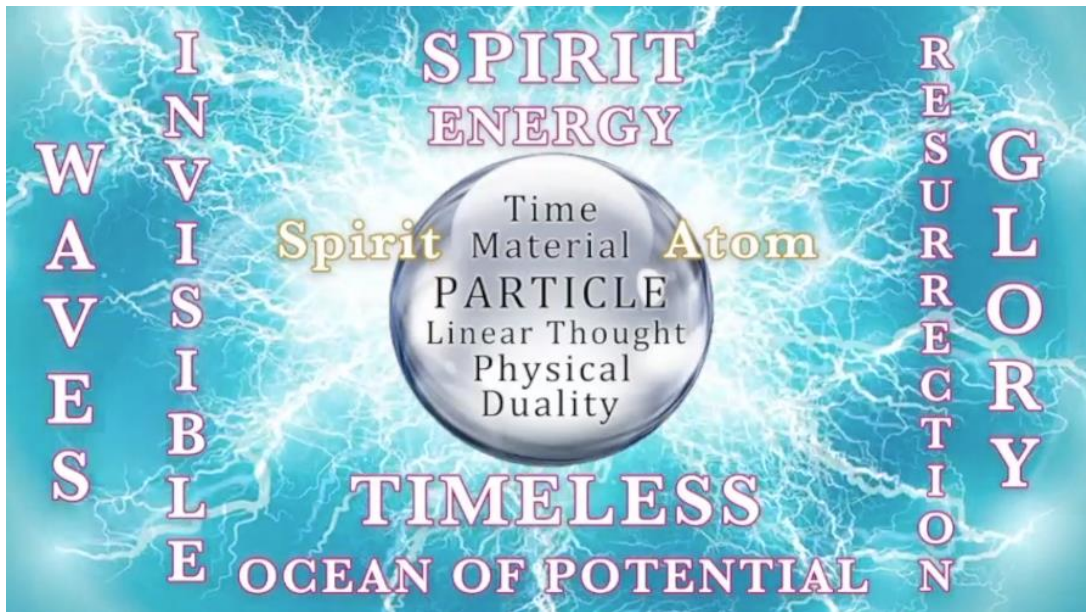

So, we don't live in this dimension. We have the ability to think and believe simultaneously outside of time and experience what it is we want immediately. It's only your hypnotic state that makes you believe according to your senses that you don't have what you want.

Seeing the Unseen
English Transcript – Emerson Ferrell

When you start to realize that your spiritual nature is more powerful than this physical dimension, you're no longer a victim to anything that's happening outside your senses. Because all of the matter that it takes to create the physical world is that small percentage of particle in the atom. And the vastness of that atom, which is all spirit, is all of the possibilities, the potentials in that spiritual dimension that's waiting for you to experience it.

Seeing the Unseen

English Transcript – Emerson Ferrell

We are creative beings. We come from the source of love to create everything that we possibly want. And then when you understand you have that ability, you don't want to do anything but love God, because you don't need anything. You see, most people stay busy doing something because they think they're in lack, they don't think they have what they need, so they stay busy. Instead of staying conscious, instead of understanding their relationship with all things under His feet, they try to get, they try to hold on to things that are not necessary for their creative state as a son of God.

The reality of that statement, if you can get hold of it, will start to give you such peace, such absolute feelings of oneness that you'll stop with all the confusion and all the stress that's created from trying to get something that you already have. And even if you have it, you don't want it, because the material realm is never satisfying. It's only the spiritual light that's within you that can give you that peace that passes understanding.

You see, when your body is in homeostasis or balance, God's development inside of you will give you creative understanding of your original purpose, plan, and development for the ages to come. We are eternal beings on the inside already with a destiny, but because we are so limited with our perception, we don't see the grand picture. And the grand picture is so phenomenal and so great that it would blow your mind if you saw it. You would no longer ever be attracted by the material realm. It would lose all attraction and your addiction for your personal lack would disappear.

When you can start to see the spiritual dimension in such fullness, you will understand that you are not limited by this physical body. That you actually go in and out of that spiritual dimension several times a second. And your spiritual body is capable of bringing into the physical dimension all of the information that is in that spiritual dimension.

Seeing the Unseen

English Transcript – Emerson Ferrell

You can bring to the visible that invisible understanding and knowledge. You see all energy has frequency and has knowledge, and when you're conscious of your spiritual being, you'll start to see that dimension unfold. And it'll look like your image in a mirror.

You've been in a dressing room where you've tried on clothes before, and you see your image in the mirror in all the dimensions before you and behind you. That is the way your spirit moves in and out of that invisible dimension. And the information God can give you in that invisible realm will solve problems for your neighbor, solve problems for your children, will bring understanding to communities. It is the perfect design of God for those who are conscious of His love and His original purpose for your life.

And I want you to take this opportunity right now to just close your eyes and just listen to the noise, to the voices, to the things that are going on, on the inside of you. Just pay attention to them. Operate in that stillness until the story you hear yourself being told starts to lose its authority over your beliefs and over your attention. Because we tell ourselves all the time what we are to believe, what we are missing, what we're in lack of, all of the things, all of the stories that we tell ourselves, propel us to more and more attention into this physical realm. We have to break that condition because it is a conditioning. As that voice starts to disappear, so will your attention to the physical.

And I keep talking to you about this physical dimension, but that is the makeup of your personality, that is the makeup of your "personal reality". And when you have the *new birth* that Jesus spoke about to Nicodemus, that personal reality changes, your personal goals change, your perceptions change, and so will the story you tell yourself.

Seeing the Unseen

English Transcript – Emerson Ferrell

So, Jesus brought everything you needed into this dimension, and He collapsed that invisible realm into this “time realm” so that you could partake and enter into that spirit realm back and forth, seven or eight times a second, and bring back from the invisible realm the reality of what He brought into this dimension. That's the reality of Christ in the resurrection. Everything He wrote, everything that was written about Him was fulfilled in that resurrection.

So, you can have on the inside of you everything spoken before and after Christ. It is written, you are that living epistle. So, when you know that He is on the inside of you and He's fulfilled everything that you could possibly want, you will spend more time inside instead of outside. You're the author of what's happening in your life. You want to change it, change what you believe, change what you focus on, change how you hear what's going on inside of you.

And when you do that, you will start to understand how special you are, how much God loves you, how much you don't have any lack, how much you are not a victim, how much you've not been abandoned by your parents or whatever it is you feel like you're a victim from. That's not real. What's real is what Jesus did when He overcame death. That's reality. And when you focus on that and you stay attentive to that, all these other things just float away.

Well, I wanted to share that with you today. God bless you. I'll see you next time.

Bye.
