

Skin Recovery After Peeling / Laser / Professional Treatments

Product description

A medical cream that balances the skin barrier in the case of damaged skin. The cream provides optimal and long-lasting hydration, softens, strengthens the skin's natural barrier, and soothes the skin immediately. Suitable for all skin types and skin conditions as aftercare for (medical) skin treatments such as peels, laser and other professional treatments.

Indications/fields of application

- Aftercare support for recently (professionally) treated skin
For example - after chemical peels and laser treatments
- after medical or cosmetic treatments
- after skin treatments with (medical) cosmetics
- Aftercare support for damaged skin
- Support for irritable or sensitive skin
- Support for skin that cannot tolerate most cosmetics
- Strengthens the skin (apply as a booster/serum)

Active ingredients

- Aloe Vera Gel** : Intensive and long-lasting hydration
Beta-Glucan : Reduces redness and calms the skin
Bisabolol : Calms the skin
Allantoin : Reduces irritation and supports skin healing

Properties

ALHYDRAN Barrier Repair Care, especially developed for repairing and strengthening the skin barrier after professional (medical) treatments. We used the scientifically proven formula of ALHYDRAN Medical Care for the Skin as the basis. We combined the unique characteristics of Aloe Vera Gel with other high quality, active ingredients. ALHYDRAN Barrier Repair Care is enriched with B-Glucan, Bisabolol and Allantoin, amongst others. All ingredients contribute to calming, repairing and strengthening the skin barrier. This cream strengthens the skin structurally and provides immediate relief to the most sensitive skins.
